U. S. Department of Agriculture

OFFERING THE FINEST COMPLETE LINE OF
NURSERY STOCK, THE LARGEST DRIVE-IN
SALES DEPARTMENT AND THE MOST COMPLETE
LANDSCAPING SERVICE IN CENTRAL ILLINOIS.

1960

STANDARD NURSERY STOCK GUARANTEE

We will resupply once, at one half the original price, any tree, shrub, vine or evergreen (no other plants guaranteed) that fails to survive the first growing season, provided the plants have received proper care and that payment of the bill has been made when due.

Perennials and roses failing to come through the winter will not be replaced.

All plant failures must be reported IN WRITING by Sept. 1. Labor for planting of all replacements is charged for on the same basis as new planting.

TERMS AND CONDITIONS

All nursery stock is sold cash with order or C.O.D. We reserve the right to increase list price on special selections in the field.

The prices in this catalog apply to spring 1960, cancel all previously published prices, and are

subject to change without notice.

Any stock selected in our fields for future delivery requires a 20% deposit which is not refundable.

All orders are subject to 3½% sales tax.

Place Your Orders Early.

Time payment plan available for landscape work.

DELIVERY CONDITIONS

Under normal conditions, we give free delivery on all orders over \$25.00 within a radius of 45 miles of Henry. A delivery charge of \$1.00 will be made on all orders under \$25.00 outside the city limits of Henry. To save book-keeping, all small orders for delivery must be paid in advance.

Our trucks will make spot deliveries anywhere at cost.

The majority of nursery stock can be hauled in an ordinary passenger car.

We reserve the right to make an additional charge on express and Parcel Post shipments to cover cost of special packing.

SATISFACTION IS CO-OPERATION

PLEASE REMEMBER plants are living things, requiring plant food and water and protection from disease, weeds, and dogs. CARE is the difference between strong, healthy, satisfactory growth, and weak sickly stragglers.

GIFT CERTIFICATES

FATHER'S DAY
MOTHER'S DAY
CHRISTMAS
BIRTHDAYS
ANNIVERSARIES

Do it the easy way on that next special occasion and give them a gift certificate for plants that will live and become more beautiful thru the years.
(available in any denomination)

EVERGREENS

We offer the most complete line of evergreens that can be seen in the Midwest.

Evergreens are invaluable for beautifying grounds. They are used for specimens on the lawn and also extensively for massing, shelter-belts, screens, and hedges.

For planting around the house as a foundation planting, they give a color and warmth that cannot be obtained with any other tree. Only

an inspection of our stock can give an adequate idea of the variety of color effect they present.

A good many fail with evergreens on account of improper treatment. EVERGREENS MUST BE HANDLED FRESH. FREQUENT WATERING AND CULTIVATION during the first year will guarantee success.

All Evergreens Are Balled and Burlaped.

ARBOR VITAE

AMERICAN ARBOR VITAE—One of the most valuable of the native evergreens. It thrives in a moist situation. Fine for windbreaks, and for ornamental hedges, as it shears well and makes a very dense hedge. Called the post cedar in Wisconsin. Our stock is propagated from select strains. Each

18 to 24 inches	\$2.50
2 to 3 feet	3.75
3 to 4 feet	4.75
4 to 5 feet	6.50

BERKMAN GOLDEN ARBOR VITAE—A very compact, slow-growing dwarf type. The flattened leaf-clusters face outward edgewise, presenting a beautiful surface of vertical fluted lines. Foliage is a deep green, edged with gold. Each

24 to 30 inches	\$4.00
-----------------	--------

GLOBE ARBOR VITAE—This dwarf variety of very dense, compact growth maintains a natural globe shape without trimming. Grows very dense and round; is admirably adapted for foundation planting. Each

15 to 18 inches	\$4.00
18 to 24 inches	5.00

ORIENTAL ARBOR VITAE (Chinese Arbor Vitae)—An introduction from China which has proven very hardy. Has flat, fan-type foliage with rich green color. A strong, rapid grower which can be used as windbreaks or sheared to landscape specimens. Each

3 to 4 feet	\$4.00
4 to 5 feet	6.00

PYRAMIDAL ARBOR VITAE—A dwarf variety of compact growth and very narrow upright habit, and of a deep, green color. Makes a straight, narrow column. Hardy everywhere except in dense shade and splendid for formal plantings. Each

18 to 24 inches	\$2.75
30 to 36 inches	4.50
3 to 3½ feet	5.50
3½ to 4 feet	6.50
4 to 5 feet	7.50
5 to 6 feet	9.50

JUNIPERS

JUNIPERUS CHINENSIS PYRAMIDALIS (Pyramid Chinese Juniper)—This is a propagated form of the seedling Chinese Juniper which we have selected and grown on its own roots. The juvenile foliage is light green and turns to steel blue when mature. Very formal in habit.

3 to 3½ feet	\$6.75
3½ to 4 feet	8.25
4 to 5 feet	10.00
5 to 6 feet	13.50

JUNIPERUS CHINENSIS PFITZERIANA (Pfitzer Juniper)—Low, irregular, spreading, vase-shaped of bush-like form, with dense, gray-green foliage of soft, feathery appearance. Extremely hardy, and will grow anywhere. Very valuable for foundation and group plantings. Each

4-year-old, from 1-gal. can	\$ 2.00
15 to 18 inches	4.00
18 to 24 inches	5.00
24 to 30 inches	7.50
30 to 36 inches	10.00
3 to 3½ feet	12.50

JUNIPERUS CHINENSIS PFITZERIANA NANA (Dwarf Pfitzer)—This plant differs from the regular Pfitzer in that it is much slower growing, the foliage is finer in texture, and has a light green color. Can be used in more confined places than the regular Pfitzer. Each

15 to 18 inches	\$5.00
-----------------	--------

JUNIPERUS CHINENSIS PFITZERIANA, KALLAY'S COMPACTA—This was developed by an Ohio nursery and is characterized by its dense habit. Foliage is the same color as the regular Pfitzer but somewhat finer in texture. Each

12 to 15 inches	\$3.50
15 to 18 inches	5.00

JUNIPERUS CHINENSIS PFITZERIANA, NICK'S COMPACTA—This plant was developed by a Kentucky nursery and has a dense habit. The foliage is more coarse than the Kallay's. Each

15 to 18 inches	\$5.00
-----------------	--------

JUNIPERUS CHINENSIS PFITZERIANA, HILL'S GOLDEN—This Pfitzer is identical in habit to the regular Pfitzer except that the tips of the branches are gold in color. Each

15 to 18 inches	\$4.00
18 to 24 inches	5.00
24 to 30 inches	7.50

JUNIPERUS CHINENSIS PFITZERIANA GLAUCA (Silver Pfitzer)—Identical in habit to the regular Pfitzer, but it has a true blue color which makes an excellent contrast with other low types. Each

15 to 18 inches	\$4.50
18 to 24 inches	6.00

JUNIPERUS COMMUNIS DEPRESSA (Vase-Shaped Juniper)—Similar in foliage to the Canadian Juniper, but with a more erect habit forming a distinct vase. Each

15 to 18 inches	\$3.75
18 to 24 inches	5.00

JUNIPERUS COMMUNIS HIBERNICA (Irish Juniper)—Dwarf growing Juniper of very upright, dense, columnar habit, with bluish-green foliage. Makes a narrow column. Each

3 to 3½ feet	\$5.50
--------------------	--------

JUNIPERUS HORIZONTALIS PLUMOSA (Andora Juniper)—A low-growing, spreading, dwarf evergreen that is excellent for terrace and rock garden plantings. Color of foliage is blue-green in summer and orchid in winter. Each

4-year-old, from 1-gal. cans	\$ 2.00
15 to 18 inches	4.00
18 to 24 inches	5.00
24 to 30 inches	7.50
30 to 36 inches	10.00

JUNIPERUS EXCELSA STRICTA (Spiny Greek Juniper)—A native of Greece; forms a tall, dense, narrow, conical shape, tapering gradually from the ground to a sharp terminal point; fine glaucous color with very close-growing needles. Each

15 to 18 inches	\$3.00
18 to 24 inches	4.00
24 to 30 inches	5.00
30 to 36 inches	6.50

JUNIPERUS HETZI—A new semi-upright spreading evergreen introduced by a Pennsylvania nursery, which has proven very hardy and is a very strong grower. Foliage is a fresh blue-green color. Develops with a higher spread than the regular Pfitzer type. Each

15 to 18 inches	\$ 3.75
18 to 24 inches	5.00
24 to 30 inches	7.00
30 to 36 inches	9.50

JUNIPERUS HORIZONTALIS DOUGLASI (Waukegan Juniper)—A trailer of low, dense habit, covering the ground while not growing over six inches in height. The color of the foliage is a soft blue. Each

15 to 18 inches	\$4.00
18 to 24 inches	5.50

JUNIPERUS MEYERI (Meyer Juniper)—It is an attractive form of irregular habit, with short straight branches. The foliage is plump, pointed and prickly, is concave on the upper side and a shiny blue color. It is a slow-growing variety which thrives to best advantage in a sunny location. Each

12 to 15 inches	\$3.00
15 to 18 inches	4.50

JUNIPERUS SABINA (Savin Juniper)—A low, much-branched, spreading shrub 2 to 3 feet in height; its branches well supplied with short, straight, tufted branchlets, which are well covered with dark green foliage. Each

15 to 18 inches	\$3.75
18 to 24 inches	5.00
24 to 30 inches	6.50

JUNIPERUS SABINA FASTIGATA (Upright Savin)

—Foliage similar to the regular Savin Juniper but habit entirely different. Broad pyramidal shape, making it an ideal evergreen for the modern style of architecture.

24 to 30 inches	\$4.75
-----------------------	--------

JUNIPERUS SABINA TAMARISIFOLIA (Tamarisk Juniper)—A low form of the Junipers, spreading habit, and is noted for its excellent green winter color. Very hardy and popular wherever grown. Each

12 to 15 inches	\$3.25
15 to 18 inches	4.00

JUNIPERUS SQUAMATA (Procumbens or Japonica Juniper)—One of the best prostrate evergreens. Never grows over 12 inches in height, spreads slowly, and has a rich blue-green color during all seasons. Each

15 to 18 inches	\$4.00
18 to 24 inches	5.50
24 to 30 inches	7.50

JUNIPERUS VIRGINIANA (Red Cedar)—A well-known evergreen of compact pyramidal growth. The dense foliage is a bright bluish-green when fresh, maturing to a deep bronze-green during the winter. It can be trimmed in any desired shape or form, and is used a good deal in topiary work. Each

3 to 3½ feet	\$5.50
3½ to 4 feet	6.50
4 to 5 feet	7.50

JUNIPERUS VON EHROH—A semi-upright evergreen with light green foliage. Ideal for hiding high foundations as it grows to a spread and height of six to eight feet. Very vigorous and hardy.

18 to 24 inches	\$5.00
24 to 30 inches	7.00
30 to 36 inches	10.00

GRAFTED JUNIPERS

JUNIPERUS VIRG. KETEELEERI (Keteleer's Cedar)

—Has a compact, formal outline, making a thick, dark green pyramid. The branchlets, disposed regularly along the branches, are more fleshy than in most Junipers. Has large berries in fall.

	Each
30 to 36 inches	\$ 6.00
3 to 3½ feet	7.00
3½ to 4 feet	9.00
4 to 5 feet	12.50
5 to 6 feet	15.00

JUNIPERUS CHINENSIS COLUMARIS GLAUCA

(Blue Column Chinese Juniper)—Very popular upright Juniper because of its bright, rich blue-green color the year around. Does not discolor in winter and will stand adverse conditions where other varieties fail.

	Each
24 to 30 inches	\$ 5.00
30 to 36 inches	6.50
3 to 3½ feet	9.00
3½ to 4 feet	11.00
4 to 5 feet	13.50

JUNIPERUS VIRG. CANNARTI (Cannart Juniper)

—The most popular of the cedars, having a rich green foliage keeping a fine green winter color. It make a pyramidal specimen of medium growth. Most trees bear blue berries in the fall.

	Each
30 to 36 inches	\$ 6.50
3 to 3½ feet	9.00
3½ to 4 feet	11.00
4 to 5 feet	13.50
5 to 6 feet	16.50

JUNIPERUS VIRG. BURKI (Burk's Cedar)

—A very popular Juniper with attractive blue-green foliage. Can be trimmed to a broad, upright formal tree which holds its color the entire year. Vigorous grower.

	Each
24 to 30 inches	\$5.00
30 to 36 inches	6.50
3 to 3½ feet	8.50
3½ to 4 feet	10.00
4 to 5 feet	12.50

JUNIPERUS VIRG. PYRAFORMIDIA (Hill's Dun-

dee Juniper)—One of the most interesting of the new evergreens. Foliage is a bluish-green in spring and summer, changing to plum-like color in the fall and winter. Grows dense and formal without much shearing.

	Each
24 to 30 inches	\$ 4.75
30 to 36 inches	6.50
3 to 3½ feet	9.00
3½ to 4 feet	11.00
4 to 5 feet	13.50

FIR

DOUGLAS FIR (Oregon Fir)—One of the most useful and beautiful evergreens for landscape work on account of both its regular pyramidal growth, and its fine-textured dense foliage. Used as specimen or for screening and wind-breaks.

18 to 24 inches	\$3.25
2 to 3 feet	5.00
3 to 4 feet	7.50

HEMLOCK

TUSGA CANADENSIS—The American Hemlock is considered one of the handsomest native evergreen trees in Eastern North America. They demand plenty of room to develop their characteristic beauty. Young trees will endure a great deal of shade.

	Each
18 to 24 inches	\$ 4.00
2 to 3 feet	6.50
3 to 4 feet	12.50

PINES

AUSTRIAN PINE—Very hardy growing, with massive needles 6 to 10 inches long of deep green color on the surface and bluish-white underneath. Habit of growth tall and well-rounded. One of our outstanding specimen trees.

	Each
18 to 24 inches	\$ 3.75
2 to 3 feet	5.00
3 to 4 feet	7.50
4 to 5 feet	12.50
5 to 6 feet	17.50

MUGHO PINE—A dense, low, round, shrub-like Pine of dark green foliage extremely slow growth. Fine for planting in front of other trees.

	Each
12 to 15 inches	\$3.75
15 to 18 inches	5.00
18 to 24 inches	7.50

SCOTCH PINE—Large, cone-bearing evergreen tree with irregular crown, spreading branches, and blue-green foliage. Bark reddish-brown, on older trunks becoming grayish and fissured into scaly plates. Resistant to city smoke.

	Each
18 to 24 inches	\$3.00
2 to 3 feet	4.25
3 to 4 feet	6.50

WHITE PINE—Hardy ornamental Pine of very rapid growth. Needles soft bluish-green, long and slender. Easily moved by the slightest breeze, so that a constant sighing and moaning is kept up which has long been the theme of the poets.

	Each
18 to 24 inches	\$3.50
2 to 3 feet	4.75
3 to 4 feet	7.50
4 to 5 feet	12.50

SPRUCE

COLORADO SPRUCE (The seedling form of the Blue Spruce)—A great majority are of greenish cast with a slightly bluish tendency. The blue color is more pronounced during the late spring and summer months.

12 to 15 inches from containers, choice color	\$ 2.75
Per 10	25.00
18 to 24 inches	6.50
24 to 30 inches	10.00
30 to 36 inches	15.00
3 to 3½ feet	20.00

COLORADO BLUE SPRUCE — The select of the Colorado Spruce called "Shiners," sell at 65c per inch.

KOSTER GRAFTED BLUE SPRUCE—The King of all evergreens. Available in sizes 22 to 34 inches at \$1.50 per inch.

NORWAY SPRUCE—Large, fast-growing tree of Northern Europe, very symmetrical and of pyramidal habit, dark green foliage, often with drooping branches. Its extreme hardiness and adaptability to all situations make it a most valuable tree when planted for shelter and screen, as well as a single lawn specimen. Fine for windbreaks. Each

18 to 24 inches	\$2.75
2 to 3 feet	4.25
3 to 3½ feet	6.00
3½ to 4 feet	8.50
4 to 5 feet	10.00

YEW (Taxus)

TAXUS BROWNI (Brown's Yew)—This variety is very popular because of its dense habit and rich green color. It differs from the regular Spreading Yew in that it is more globular in shape. Responds readily to trimming and makes an excellent low hedge. Each

12 to 15 inches	\$ 5.00
15 to 18 inches	7.00
18 to 24 inches	10.00

TAXUS CUSPIDATA (Spreading Yew)—Similar to the upright type, except its spreading habit, growing slightly higher than the spreading Junipers. Like all Yews, grows in shady locations. Each

15 to 18 inches	\$ 6.50
18 to 24 inches	10.00
24 to 30 inches	14.50
30 to 36 inches	17.50

TAXUS CUSPIDATA NANA (Dwf. Jap Yew)—Foliage is darker than the regular spreading yew, slower growing, denser in habit, and well adapted for planting in confined areas. Each

12 to 15 inches	\$ 6.50
15 to 18 inches	10.00

TAXUS CAPITATA (Upright Yew)—One of the most beautiful of the evergreens. It grows slowly with a delightful irregularity of outline; its many branches covered with the rich, waxy, green foliage characteristic of all yews. Some trees have bright red berries in the fall.

18 to 24 inches	\$ 9.50
24 to 30 inches	12.50
30 to 36 inches	17.50

TAXUS MEDIA HATFIELDI (Hatfield Yew) — A compact bush of conical shape with upright branches and radially spreading leaves. This habit makes it valuable for thick hedges as well as specimen planting. Each

15 to 18 inches	\$8.50
-----------------------	--------

TAXUS MEDIA HICKSI (Hick's Yew)—A very interesting Yew of an upright type, growing in an extreme, narrow, column bush. It is fairly rapid-growing and has a deeper green color than most Yews. Slender type only. Each

15 to 18 inches	\$ 6.00
18 to 24 inches	9.00
24 to 30 inches	11.00

TAXUS HENRYI—Improved form of Densiflora. Excellent for any type of yew planting as this variety can be sheared to any desired shape. Each

12 to 15 inches	\$5.00
15 to 18 inches	6.75

TAXUS HUNNIWELLIANA (Hunniwell Yew)—Darker color than the regular spreading yew and one of the best yews for bearing red berries in fall. Each

12 to 15 inches	\$4.75
15 to 18 inches	6.75

BROAD-LEAVED EVERGREENS

DAPHNE SOMERSET—A medium growing shrub covered with blue-green almost evergreen leaves. Each stem is tipped with dense clusters of rose-pink, fragrant flowers in April and May. Each

18 to 24 inches B & B	\$4.75
-----------------------------	--------

EUONYMUS EMERALD CHARM — One of the new Euonymus which is columnar in habit and can be used as a pillar shrub, hedge, or pyramid. Will grow where climate prohibits the use of boxwood and holly.

2 yr. from container	\$1.25
----------------------------	--------

EUONYMUS FORTUNEI ACUTUS (Wintercreeper)—Lowest growing of the evergreen winter-creeper, this gem is seldom over 6 inches high as a ground cover. Small deep green foliage is exceedingly handsome.

2 yr. from 1-gal. cans	\$1.25
------------------------------	--------

EUONYMUS FORTUNEI COLORATUS (Purpleleaf Wintercreeper)—Leaves quite large, purplish fall and winter; then shed in spring forming light green foliage. Makes heavy ground cover.

2 yr. from 1-gal. cans	\$1.00
------------------------------	--------

EUONYMUS FORTUNEI RADICANS (Minifolia)—Small round foliage, sometimes called Common Wintercreeper. One of the best vine types as it is strong growing and will cling to walls.

2 yr. from 1-gal. cans	\$1.25
------------------------------	--------

EUONYMUS FORTUNEI RADICANS "SARCOXIE" (New Upright Euonymus)—New, distinct hardy type. Leaves glossy, thick, and hold color well in winter.

3 yr. from 1-gal. cans	\$ 2.25
15 to 18 inches B & B	4.75

EUONYMUS FORTUNEI VEGETUS (Bigleaf Wintercreeper)—A strong growing variety, with large glossy leaves, and producing bright orange-red berries, which remain on the plant most of the winter. As a hardy evergreen ground and wall cover, this plant is unequalled.
3 yr. from 1-gal. cans\$1.25

EUONYMUS PATENS ERECTUS—Is a handsome, nearly evergreen species, with large light green leaves. Has dense, upright, bushy growth. Excellent for shady places.
3 yr. From 1-gal. cans\$1.25

HEDERA HELIX GRACILIS (Baltica Ivy)—Identical in habit with the English Ivy, but foliage not as large and more cut; a most graceful vine; perfectly hardy and a splendid evergreen vine on walls with north exposures; also an excellent ground cover. Each
From quart cans65c
Per 100\$50.00

ILEX GLABRA (Inkberry)—A much-branched upright shrub with foliage that is glossy bright green, becoming yellow-green in winter. Dislikes shade. Semi-evergreen. Each
18 to 24 inches B & B\$5.00

ILEX OPACA (American Holly)—The well-known, red-berried, American Christmas Holly. Not available in sexed plants. Must be planted in sheltered location. Each
2 to 3 feet B & B\$6.00

ILEX CONVEXA HETZI (Hetz Japanese Holly) — Compact, dense shrub, wider than tall. Small, shiny, curved leaves. Must be planted in sheltered locations.
12 to 15 inches B & B\$2.75

KOREAN BOXWOOD—The only hardy boxwood that can be used in Central Ill. Small, light green leaves, shears readily, making an excellent dwarf hedge. Each
15 to 18 inches B & B\$3.25

MAHONIA AQUIFOLIUM (Oregon Grape Holly) —It has handsome, spiny, dark green lustrous leaves which take on a bronzy tone in the fall. The clusters of yellow flowers are showy in the spring, and later the bluish-black bloomy fruits are attractive. Each
3 yr. from 1 gal. cans\$1.75
15 to 18 inches B & B4.00
18 to 24 inches B & B6.00

PACHYSANDRA (Jap Spurge)—Evergreen ground cover of the root running type. Must have partial shade.
2-yr. from 1-qt. cans45c
Per 100\$30.00

PIERIS JAPONICA (Japanese Andromeda)—Handsome, shiny dark green foliage which colors in Fall. Pendulous white flower clusters on top of bush in summer.
12 to 15 inches B & B\$2.75

PYRACANTHA LALANDI (Firethorne)—A most remarkable fruiting evergreen shrub. Bears attractive large trusses of white flowers during the late Spring followed by an abundance of brilliant orange-scarlet berries which remain late in the winter. It prefers a sandy soil and warm location. Each
3 yr. from 5-qt. cans\$1.75

RHODODENDRON, HYBRIDS — We offer this flowering plant in several named varieties. In order to have success with Rhododendrons, you must have the proper location. They do very well if planted where the winter sun does not strike, and with a soil mixture of about one-third peat.
18 to 24 inches from 5-gal cans\$9.50

TEUCRIUM CHAMAEDRYS—Shrublike plant of moderate growth. Has shiny dark leaves which hang on all winter. Resembles dwarf boxwood and may be used where the latter is not hardy. Can be clipped to suit any height up to 12 inches. Used extensively as an edging for formal beds.
2-yr. from 1-qt. cans45c
Per 100\$35.00

VINCA MINOR (Myrtle)—Old time dense evergreen ground cover for sun and shade. Blooms in summer with light blue flowers.
2-yr. from 1-qt. cans45c
Per 100\$35.00

SMALL EVERGREEN COLLECTION

Every season we have innumerable requests for young evergreen transplants suitable for growing on in the garden.

We offer the following list of 3-year-old transplants at 75c each, except varieties marked * which are \$1.75.

Do not confuse these with mail order seedlings, as we only sell young, vigorous plants, ready for the field.

No order accepted for less than five plants, or after April 10. Customer will be notified when trees are ready to pick up, or they can be shipped Parcel Post with an additional charge of 65 cents per order.

American Arbor Vitae	Norway Spruce
Globe Arbor Vitae	Browni Yew
Pyramidalis Arbor Vitae	Spreading Yew
Pfitzer Juniper	Upright Yew
Blue Pfitzer Juniper	Hick's Yew
Savin Juniper	Hunniwell Yew
Scotch Pine	Andora Juniper
Burki Juniper	*Cannart Juniper
Mugho Pine	*Hill's Dundee Juniper
Douglas Fir	*Blue Column Juniper
Colorado Spruce	Austrian Pine

We are open on Sundays, March 6 through May 15, and September 4 through November 13.

SHADE AND ORNAMENTAL TREES

Note: Sizes are given as average height, i.e., 5 to 6 feet, or measured by the diameter of the stem 12 inches above the ground, i.e., 2 to 2½ inches.

Prices following are based on the trees being dug naked root, except where noted as B. & B. B. and B. means that the tree is dug with a solid ball of earth. With this method, the small hair roots are not disturbed.

Special quotations will be made on any of the trees B. and B. See end of shade tree section.

ASH, GREEN—Found native throughout the state, attains a height of 50 feet or more, has spreading branches. The twigs are smooth, round, and ashy gray marked by pale lenticels and rusty bud-scales. Has compound leaves. Each

6 to 8 feet\$4.25

ASH, MOUNTAIN—Hardy tree, head dense and regular, beautiful fern-like foliage, distinctly ornamental. Covered with clusters of bright red berries from July until winter. The combination of foliage and clusters of fruit makes it a very beautiful tree for planting. Each

6 to 8 feet\$5.00

8 to 10 feet7.00

1½ to 2 inches10.00

BIRCH, EUROPEAN WHITE—A graceful tall tree, showing a white bark as it matures. A fine ornamental tree in any position, especially in evergreen group where the bark shows up most effectively. Each

5 to 6 feet (Spring only)\$3.50

6 to 8 feet5.00

8 to 10 feet7.00

1½ to 2 inches9.00

2 to 2½ inches11.00

BIRCH, EUROPEAN WHITE CLUMPS—We recommend the planting of three individual trees in one hole to prevent splitting after the trees are mature. The trees should be assorted sizes and crooked. We offer a special for this type of planting as follows:

Three Birch, assorted sizes, 5 to 8 feet\$11.00

Three-branch clump on one stem, 5 to

7 feet (Spring only)5.00

8 to 10 feet9.50

10 to 12 feet B & B17.50

12 to 14 feet B & B27.50

BIRCH, CUT LEAF WEEPING—Its tall, slender, yet vigorous growth, graceful drooping foliage presents attractive characteristics rarely met in a single tree. Each

4 to 5 feet (Spring only)\$4.75

8 to 10 feet8.75

10 to 12 feet10.50

1½ to 2 inches15.00

FLOWERING CRABS

ADSTRINGENS—A wide spreading tree of shapely growth that will attain a height of from 15 to 20 feet. An early bloomer whose flowers are deep rose in bud, opening to a lighter shade or rose-pink. The foliage is a light purple and the fruit various shades of red, yellow, and green. Each

4 to 5 feet\$3.50

5 to 6 feet4.75

6 to 8 feet B & B11.50

ALMEY—A new hybrid which has large blossoms of glistening red petals, white markings at base of each, giving the effect of a five-pointed star. The scarlet fruits are retained until spring, furnishing food for winter birds. Very hardy and disease resistant. Each

4 to 5 feet\$4.50

ELEYI—Has attractive reddish foliage in spring. Great abundance of single pink flowers followed by red fruit. Each

4 to 5 feet\$3.50

5 to 6 feet4.75

6 to 8 feet B & B11.50

HOPA—Beautiful in bloom, beautiful in foliage, beautiful in fruit. A blaze of red in the spring. From midsummer until severe freezing, the clusters of small, red Crab Apples gleam brightly along the branches. The fruit makes a very fine jelly. Each

4 to 5 feet\$2.75

IRENE—Of medium size and irregular spreading growth. Foliage has a dark reddish color. Considered one of the outstanding red flowering crabs. Each

3 to 4 feet\$3.75

4 to 5 feet4.75

RINGO—Of medium size and upright growth, this tree bears pink flowers. The large, dark green, very shiny foliage is particularly handsome. This is the only variety of Malus with a shiny leaf. The fruit is one inch in diameter and bright orange in color.

4 to 5 feet\$3.50

5 to 6 feet4.75

6 to 8 feet B & B11.50

ZUMI—This wide growing, well-formed tree is the finest of all crabs. Very heavy bloomer, with pink buds opening to pure white. The one-quarter-inch fruit is bright orange and persists into February. Each

3 to 4 feet\$3.50

4 to 5 feet4.75

SHADE TREES (cont.)

CHINESE CHESTNUT—One of the best of the nut trees for this climate. Blight resistant, nuts are larger than the American Chestnut and are equally sweet and good. Makes a very ornamental, low, bushy tree which is slow growing, but bears when small. Each

6 to 8 feet B & B\$12.50

8 to 10 feet B & B17.50

ELM CHRISTINE BUISMAN—An erect tree with ascending branches that form a pyramidal head. The handsome foliage is dense and dark green. Repeated tests by U.S.D.A. show that this elm is immune to Phloem Necrosis and highly resistant to Dutch Elm disease. Each 1½ to 2 inches\$10.00

ELM, CHINESE—Of recent introduction from China, is native of Turkestan to Siberia. Of extremely rapid growth while young, but does not make a large tree. Foliage is small and dense; growth symmetrical and compact. Especially adapted to arid regions, succeeds everywhere. Each
1 to 1½ inches or 6 to 8 feet\$ 3.00
1½ to 1¾ inches or 8 to 10 feet 4.25
1¾ to 2 inches 7.50
2 to 2½ inches10.00

ELM, HYBRID—A cross between Chinese and American Elm. Habit of growth similar to American Elm but with the rapid growth of the Chinese Elm. Branches are straight and strong and do not break in high winds. Large dark green leaves. Very hardy and resistant to disease. Each
6 to 8 feet\$4.75
8 to 10 feet 6.50
10 to 12 feet 9.00

GINKGO BILOBA (Maidenhair Tree)—Leaves are shaped like the maidenhair fern. Makes a handsome, picturesque, lawn specimen. The oldest shade tree in cultivation. Very hardy and disease-resistant. Each
6 to 8 feet\$7.50
8 to 10 feet11.50

HORNBEAM, PYRAMIDAL EUROPEAN (Carpinus Betulus)—Dense, dark green foliage on a narrow tree that stands shearing well. One of the finest, trouble free, small specimen upright trees.
3 to 4 feet B & B\$6.50

THE LOCUSTS

MORaine LOCUST—(Pat. No. 836) An improved Honey Locust with a round head when young, but tall and vase-shaped when older, attaining a height of 80 to 100 feet. Thornless, seedless, withstands drought and flood, easily transplanted, and long lived.
5 to 6 feet Whips (Spring only)\$ 5.00
1½ to 2 in.17.50

MAJESTIC LOCUST — (Pat. No. 1534) A strong, exceptionally graceful tree of spreading growth habit. It is entirely thornless. The bold, abundant foliage is extremely dark green when mature. Flowers are occasionally polygamous, but seeding has been relatively light.
8 to 10 feet\$12.50

IMPERIAL LOCUST—(Pat. No. 1605) A new variety destined for recognition as one of the outstanding trees of this age. Branches are symmetrically arranged, forming a regular and compact tree with dense shade. Thornless, and flowers are staminate with no seeds.

5 to 6 feet whips (Spring only)\$ 5.00
6 to 8 feet 10.00
8 to 10 feet 13.50

SUNBURST LOCUST—(Pat. No. 1313) New thornless and seedless variety with branch tips of bright golden yellow, shading to bronze at the ends, contrast sharply with the rich green inner foliage to make it look like a flowering tree bursting with bloom. Has stately form with broad-pyramidal head.

5 to 6 feet whips (Spring only)\$ 5.00
6 to 8 feet 10.00
8 to 10 feet 13.50

SHADE TREES (cont.)

HACKBERRY—A native tree of the Illinois River valley. Has narrow, pointed leaves, slender branches and rough bark. An excellent tree for city planting. Each
6 to 8 feet\$4.50
1½ to 2 inches 9.50

KOELREUTERIA PANICULATA (Golden Rain or Varnish Tree)—So called because of the large clusters of showy yellow flowers born at the ends of the upper branches followed by seed pods which appear to be varnished. Never exceeds 30 feet in height.
6 to 8 feet B & B\$12.50

LINDEN, AMERICAN (Basswood)—Extensively planted because of their dense, attractive foliage and the abundant, fragrant, yellowish flowers which add to their beauty. Source of honey for the bees.
6 to 8 feet\$5.00
1½ to 2 inches 9.50

LINDEN, EUROPEAN (Little Leaf Linden)—A favorite street tree because of its pyramidal form. Foliage dark green. Bark has a distinctive brown color.
6 to 8 feet\$6.00
8 to 10 feet 8.00

LINDEN, SILVER (Tilia Tomentosa)—Compact, dense pyramid in habit with leaves green above and silver below. Exceedingly lovely and still quite rare as this is an imported item from Holland.
6 to 8 feet\$8.50

MAGNOLIA SOULANGEANA (Saucer Cup Magnolia)—By far the best of the hardy Magnolias, producing a wealth of delicate shaded blooms, just before the leaves open. The flowers open light purple at the base, shading to pink at the tips, with inside petals clear pink to white. One of our most beautiful ornamentals. Each
2 to 3 feet 5.00
3 to 4 feet 7.50
6 to 7 feet 27.50

MAGNOLIA STELLATA—The Star Magnolia is the hardiest of this class. A much-branched, wide-spreading, large shrub, bearing a great profusion of large pinkish-white fragrant blooms before the leaves in the Spring. Each

24 to 30 inches\$10.00

MAPLE, CRIMSON KING (Plant Patent No. 735)—

This tree is a hard maple type which is a cross between Norway and Schwedler Maple. It leafs out red in the spring similar to the Schwedler and holds this red color all summer. It can be truly called Red Maple. Each

5 to 6 feet (whips)\$ 5.00

6 to 7 feet 8.50

7 to 8 feet 12.50

MAPLE, HARD or SUGAR—Makes a round, dense top, medium rapid growth and one of the best for shade. Rather slow about getting started after being planted, but when once established, makes a rapid growth. The leaves give beautiful autumn tints of yellow and scarlet. Has no equal for shade. Each

5 to 6 feet\$ 3.75

6 to 8 feet 6.00

8 to 10 feet 8.00

10 to 12 feet 11.00

2 to 2½ inches 17.50

MAPLE DRUMMONDI (Harlequin Maple)—The variegated maple is similar in habit to the Norway, but the leaves are edged in a delicate shade of yellow. A striking tree for contrast planting. Each

1 inch\$ 7.50

1¼ inch 9.50

MAPLE, RED (Acer Rubrum)—This is the true Red Maple and is distinguished by its smooth gray bark and brilliant leaves in the fall. Requires a moist location. It makes a medium-sized tree and is quick-growing. Each

6 to 8 feet\$6.50

8 to 10 feet 9.50

MAPLE, RED LEAF or SCHWEDLER—Noted for its beautiful foliage. Comes out a rich, ruby-red in spring, gradually changes to purplish-green. Each

1 inch\$6.50

1¼ inch 7.50

1½ inch 10.00

MAPLE, SILVER—Well-known rapid-growing tree valuable where quick shade is wanted. It is among the first trees planted for shade by the early settlers. Each

6 to 8 feet\$4.00

8 to 10 feet 6.00

10 to 12 feet, (1½ to 2 in.) 9.00

MAPLE, NORWAY—A native of Europe. Grows similar in habit to the Hard Maple, but more dense. Its compact habit, broad, deep green shining foliage, render it one of the most desirable for streets and lawns. Each

5 to 6 feet (whips)\$ 2.00

6 to 7 feet 5.50

7 to 8 feet 8.00

8 to 10 feet, (1¼ to 1½ in.) 10.00

MAPLE, NORWAY COLUMNARIS—Compact, narrow form of the regular Norway for street planting, accent, and formal effect. Particularly useful for shallow lawns.

1½ inch\$ 8.50

2 inch 11.50

2½ inch 14.50

OAK, PIN—Forms a symmetrical pyramidal head with long pendulous branches. The foliage is much cut and assumes a bright red in autumn. Because of its erect, symmetrical and rather rapid growth, it is much used for avenues and as a specimen tree on lawns.

5 to 6 feet\$5.00

6 to 8 feet 7.50

8 to 10 feet, (1¼ to 1½ in.) 10.00

OAK, RED—Has broad, round head with cut foliage of glossy, dull green which turns a dark red in the autumn. One of the finest quick-growing trees in the world after it has become established. Each

8 to 10 feet\$12.50

ORIENTAL PLANE—The London planetree is one of our most useful street trees. It has a broad, coarse, foliage which resists smoke, dust and the ravages of insects. A rapid growing tree of permanence. Each

5 to 6 feet\$ 4.50

6 to 8 feet 7.50

POPLAR, BOLEANA (Silver-leaf Poplar)—This variety is similar in habit to the Lombardy Poplar but does not grow quite so fast. It has a smooth green bark and the leaves are silver underneath and dark green on top. Each

8 to 10 feet\$3.00

10 to 12 feet 4.00

POPLAR, LOMBARDY—Very tall, rapid-growing tree with spire-like habit. Its tall, narrow lines make it picturesque compared to the more rounded forms of other trees. Used extensively in screens, or to accent shrubbery groups. Each

3 to 4 feet Whips\$.50

10 to 12 feet 2.25

SYCAMORE—Also called Buttonwood. Considered the largest hardwood tree in North America. Reaches its largest size along streams and on rich bottom-lands. It is one of the more rapid-growing trees. Needs moist location. The bark on the younger trunk and large limbs is very smooth and greenish-gray in color. The outer bark yearly flakes off in large white patches and exposes the nearly white younger bark.

6 to 8 feet\$4.50

8 to 10 feet 6.50

1½ to 2 inches 8.50

2 to 2½ inches 11.50

THORNE, WASHINGTON—This Hawthorne is one of the best for formal plantings. Narrow in habit with a dark, green glossy foliage. Blooms with an attractive white flower in the spring and is followed with clusters of red berries which hang on until winter. Very hardy. Each

4 to 5 feet, Bare Root\$ 4.50

4 to 5 feet, B. and B. 7.50

5 to 6 feet, B. and B. 10.00

6 to 8 feet, B. and B. 15.00

THORNE, DOUBLE WHITE WASHINGTON (Oxy-cantha Flo. a-Plena) — Differs from the regular Washington Thorne in that its double white blooms and red fruits are much larger, and it is more dwarf in habit.

3 to 4 feet B & B\$6.50

TULIP TREE—Sometimes called Yellow Poplar. This tree is native in Southern Illinois and considered one of our most valuable hard-wood trees. When it reaches maturity, it blooms in the spring with tulip-like white flowers. It has a very attractive foliage and makes a beautiful ornamental shade tree. The roots are very brittle, so we list this tree as balled and burlaped. Each

5 to 6 feet B & B\$ 7.50

6 to 8 feet B & B 10.00

8 to 10 feet B. and B. 13.00

2 to 2½ inches, B. and B. 16.50

2½ to 3 inches, B. and B. 25.00

WEeping WILLOW—The well-known graceful Weeping Willow whose long, drooping branches densely covered with fresh, green leaves, make it one of the best-loved trees. Very rapid grower. Likes moist situations. Each

6 to 8 feet\$3.75

8 to 10 feet 5.00

10 to 12 feet 7.50

FLOWERING SHRUBS

Nature is always bounteous in her gifts to man and has been unstinting in giving us a great wealth of shrubs with their perfume and flowers, with their vari-colored foliage and bright fruit. No one with home grounds either large or small should be without the enjoyment of these wonderful gifts. Who can measure the uplifting influence they have upon those who are enraptured by their beauty and fragrance!

They require but little care when once established and grow in size and beauty each year. They are very effective for screens, borders, and for grouping on the lawn. There may be had a succession of bloom the entire season by

planting the various kinds, and many will hang with highly-colored fruit during the fall and winter.

There is scarcely a home in country, suburb, or town, the beauty and value of which cannot be enhanced by a judicious planting of the grounds, be they large or small; and for this purpose there is no class of plants that lend themselves more readily than the hardy flowering shrubs. In this part of the Midwest their importance has only begun to be appreciated.

To meet this demand we have added a number of desirable hardy flowering and ornamental-leaved varieties to our list of shrubs.

— Quantity Prices on Shrubs —

All shrubs are tied in bundles of five or ten. Those varieties not listed by the hundreds, sell at 25c less per plant in quantities of 10 or more of a single variety; 35c less per plant in quantities of 50 or more of a single variety.

All prices are quoted loose root unless otherwise specified. We have most all of the shrubs listed in containers at 35c extra; these can be transplanted any season of the year.

ACER

ACER GINNALA (Amur Maple) — A graceful, shrubby tree, native of N. China, the foliage turning a vivid crimson in the fall. Planted extensively as a specimen or with other shrubs because of its form and attractive foliage. Cannot be considered a shade tree because of its dwarf habit.

Each
 3 to 4 feet\$2.00
 4 to 5 feet 3.50

ACER PALMATUM ATROPURPUREA NOVUM

(Dwf. Bloodleaf Japanese Maple) — An exotic shrubby tree with magnificent purple-red foliage, gracefully lacinated. It is attractive at all seasons and makes a handsome specimen on the lawn, or can be used in the foreground of the shrub border. Should have some winter protection.

Each
 15 to 18 inches from 5 gal. cans\$7.00

DOWNY SHADBLOW

AMELANCHIER CANADENSIS (Juneberry) — A small shrubby tree growing to the height of 10 feet. Blooms in midspring with a small, delicate, airy-like, white flower followed with a maroon-purple berry which is very attractive

to the birds. The foliage colors nicely in the fall. Does very well in shady locations. Each
 18 to 24 inches\$2.00

ALMOND

AMYGDALUS (Flowering Almond) — Very early spring flowering shrub, gaily in bloom before the leaves appear. The flowers are an attractive bright double pink.

Each
 18 to 24 inches (from container)\$2.00

ALTHEA

ALTHEA (Rose of Sharon) — Upright growing shrub noted for its profusion of large blooms in September and October. This is the only shrub which produces varied color in the border for fall. Named colors: Red, Pink, White, and Blue.

Each
 3 to 4 feet\$1.50

ARONIA ARBUTIFOLIA (Red Chokeberry) — A graceful, loosely erect shrub with slender branching stems. Foliage dark green in summer, turning a brilliant crimson in Fall. Its bright red berries appear in autumn and persist through winter. A useful filler in masses and borders.

Each
 2 to 3 feet\$1.75

BARBERRY

BARBERRY, THUNBERGI—There is no shrub in existence more commonly used for foundation and hedge plantings. Autumn paints the foliage crimson and bronze, and studs the branches with red berries which hang all winter. Each 18 to 24 inches\$1.15

BARBERRY, RED LEAF—A shrub of medium height, with distinctly red foliage throughout the year. It needs a sunny location to bring out the color of the leaves. Each 15 to 18 inches\$1.25
18 to 24 inches 1.50

BARBERRY MENTORENSIS —Very rugged, strong, upright growing branches and quite formidable thorns, foliage is heavy and thick, and of perfect color—a green as dark as the Yew. In Illinois, the leaves remain green until after the holidays. In southern states, this barberry is an evergreen. Its most valuable attribute is its ability to withstand heat and drought. Will grow in almost any impossible location.

Each
15 to 18 inches\$1.50

BUDDLEIA

BUDDLEIA (Butterfly Bush)—A semi-herbaceous plant which begins to bloom in July and continues until frost. The flowers are of a pleasing shade of violet-mauve and borne in dense cylindrical spikes. Very fragrant and attractive to the butterflies. Each

2 yr. stocks\$1.50

CALYCANTHUS

CALYCANTHUS FLORIDUS (Sweet Shrub)—Old-fashioned All-spice, with glossy leaves and chocolate colored flowers, with the fragrance of the strawberry; the wood and leaves have a very pleasant, spicy fragrance. Each

2 to 3 feet\$1.50

BLUE MIST

CARYOPTERIS (Blue Mist)—A bushy plant from 2 to 4 feet high with excellent foliage, and covers itself with fuzzy gray-lavender flower in September and October. Sometimes freezes to ground but will renew itself and bloom again in one season. Each

15 to 18 inches\$1.25

WHITE FRINGE

CHIONANTHUS VIRGINICA (White Fringe)—A large shrub or small tree with somewhat stiff, spreading branches bearing very fragrant white flowers with the leaves in late Spring. Used generally as a specimen and very good in city planting as it will endure smoke and dust. Each 3 to 4 feet B & B\$4.75

RED BUD

CERCIS CANADENSIS (Red Bud)—Before the leaves come out, the branchlets are covered with clusters of small, purplish pink pea blossoms. Native of the Illinois River Valley. The foliage consists of medium size, heart-shaped leaves. Very ornamental. Each

2 to 3 feet\$2.00

3 to 4 feet 2.50

4 to 5 feet 3.50

5 to 6 feet B & B 7.50

CALLICARPA

CALLICARPA DICHOTOMA (Violet Jewel Berry)—Gracefully recurving branches, covered in August with thousands of closely set small pink-tinted flowers. These are followed in late September by masses of violet-purple berries which last until mid-winter.

2 to 3 feet\$1.50

COTONEASTER

COTONEASTER APICULATA (Cranberry Coton-easter)—A beautiful hardy dwarf Cotoneaster with arching branches which are covered with bright, shiny green leaves which color in the Fall and hang on into winter. The branches are weighted down during autumn with masses of big crimson fruits, the size of cranberries. Each 12 to 15 inches, From 1 gal. can\$2.00

COTONEASTER DIVARICATA—A beautiful hardy shrub of recent introduction from Northern China with spreading slender branches and beautiful dark green foliage persistent until into the winter. Each

2 to 3 feet\$2.00

2 to 3 feet B & B 3.00

DOGWOOD

CORNUS ELEGANTISSIMA—The variegated red twig dogwood. Each dark green leaf is edged in white making a startling contrast with the red bark. Each

2 to 3 feet\$2.00

CORNUS FLORIDUS (White Flowering Dogwood)—Small tree-like shrub. It is handsome in early spring with its four white, blunt-ended bracts surrounding the dense heads of small greenish flowers, and again in fall with scarlet fruits and gorgeous leaf coloring. Each

18 to 24 inches (from container)\$2.50

3 to 4 feet B & B 7.50

CORNUS FLORIDUS RUBRA (Pink Flowering Dogwood)—Similar in habit to the White Flowering, but the blooms are pink. Each

18 to 24 inches (from container)\$ 3.50

2 to 3 feet B & B 8.50

3 to 4 feet, B. and B. 10.00

CORNUS LUTEA (Yellow Dogwood)—A shrub of medium size with bright yellow bark in the winter. Good green foliage. Each

3 to 4 feet\$1.50

CORNUS SIBERICA (Red Dogwood)—A shrub with blood-red branches in the winter. Fruit bright blue and flowers white. Attractive to desirable birds. Each
3 to 4 feet\$1.50

CYDONIA

CYDONIA JAPONICA RUBRA (Japan Quince)—Old-fashioned shrub with glossy leaves and red flowers in great profusion in early spring before the leaves appear. This is a select strain grown from cuttings. Each
2 to 3 feet (from container)\$2.00

DEUTZIA

DEUTZIA GRACILIS (Dwarf Deutzia)—Seldom grows more than two feet high. Bears many lovely racemes of white flowers in late spring. Each
15 to 18 inches\$1.50

DEUTZIA LEMOINE (Hybrid Deutzia)—Makes a broad, rounded bush of medium growth and has large clusters of white flowers in late spring. Very hardy and has an excellent foliage all summer. Each
2 to 3 feet\$1.50

EUONYMUS

EUONYMUS ALATUS (Winged Euonymus)—Has dwarf compact habit, wood very corky, which gives it the name of cork bark. Has small delicate flowers in late spring, followed by red berries in fall. Foliage turns a brilliant red in the fall. Each
15 to 18 inches\$2.00
18 to 24 inches2.50
2 to 3 feet1.50

EUONYMUS ALATUS COMPACTA—A compact growing form of the winged Euonymus. One of the most beautiful shrubs in existence. Can be used both in foundation and border planting. Each
15 to 18 inches\$2.25
18 to 24 inches2.75

RUSSIAN OLIVE

ELAEAGNUS ANGUSTIFOLIA (Russian Olive)—Rather large growing shrub with silvery foliage. Fine for screen plantings for contrast with other shrubs. Has small, yellow blossoms in June. Each
3 to 4 feet\$1.50
4 to 5 feet1.75

FORSYTHIA BEATRIX FARRAND—A new, spectacular golden bell originating with the Arnold Arboretum. A vigorous grower, developing into a large symmetrical plant, producing deep golden flowers, often two inches in diameter with orange markings. Each
18 to 24 inches\$1.50

FORSYTHIA DWARF—New, low-growing type of merit for foundation, accent and ground cover use. Drooping branches take root on touching the ground. Each
15 to 18 inches\$1.75

FORSYTHIA INTERMEDIA—The old-fashioned Golden Bell. Excellent for borders and screening. Each
2 to 3 feet\$1.25
3 to 4 feet1.50

FORSYTHIA SPRING GLORY—This Golden Bell is lighter in color than the Intermedia, but a very heavy bloomer. There is nothing that will make you forget winter as quickly nor announce Spring as flamboyantly. Each
2 to 3 feet\$1.50
3 to 4 feet1.75

WITCH HAZEL

HAMAMELIS VIRGINIANA—One of our native shrubs which is valuable because of its ability to thrive in moist, shady locations. Small yellow flowers in late Fall which persist into winter. Each
2 to 3 feet\$1.75

SILVERBELL

HALESIA CAROLINA—The silverbell or snowdrop tree is a large shrub or small tree valued for its handsome, drooping, bell-shaped, white flowers in early spring. Followed by a small, decorative winged fruit. Each
4 to 5 feet B & B\$5.75

HONEYSUCKLE

HONEYSUCKLE, CLAVEY'S DWARF—A new hardy dwarf honeysuckle. Small yellow flowers in May, followed by large red berries. An excellent shrub for thick, medium height hedging. Each
18 to 24 inches\$1.25
2 to 3 feet1.50

HONEYSUCKLE FRAGRANTISSIMA (Fragrant or Winter Honeysuckle)—A clean, handsome shrub with a long season of beautiful foliage. The bloom comes in very early spring, creamy-white, small, not very noticeable, with a fragrance like Colgate's soap. Has a red fruit in early summer which is attractive to the birds. Will grow in partial shade. Each
2 to 3 feet\$1.25
3 to 4 feet1.50

HONEYSUCKLE MORROWI—The Jap Bush Honeysuckle is a heavy bush with dense blue-green foliage. Blooms yellowish-white and is followed with orange colored berries. Branches well to the ground. Each
2 to 3 feet\$1.25
3 to 4 feet1.50

HONEYSUCKLE ZABELI—This is a new form of the Tartarian Honeysuckle which differs in that it has a brighter red bloom and a denser habit. Foliage excellent blue-green throughout the season. Each
18 to 24 inches\$.90
2 to 3 feet1.25
3 to 4 feet1.50
4 to 5 feet1.75

HYDRANGEA

HYDRANGEA ARBORESCENS (Hills of Snow)—

The flowers are similar to snowballs in appearance, white and imposing, blooming throughout the season. Excellent for solid low borders and foundation planting. One of the few shrubs which blooms well in shade.

Each
18 to 24 inches\$1.75

HYDRANGEA P. G. (Hardy Hydrangea)—A well-known shrub that blooms from August until late fall. The blooms are first white, then turn pink on the exposed side. It produces the largest flower head of all the shrubs. Will bloom in shady situations. DO NOT PLANT ON SOUTH FOUNDATIONS.

Each
2 to 3 feet\$1.75

HYDRANGEA P. G. TREE FORM—The hardy hydrangea pruned to a single stem with a head that blooms the first year.

Each
4 to 5 feet\$3.75

HYPERICUM

HYPERICUM AUREUM (St. John's Wort)—Hardy, dwarf shrub with dark green foliage that hangs on into winter. Blooms in July-Aug. with yellow flowers at a time when most shrubs are out of season.

Each
18 to 24 inches\$1.50

HYPERICUM, SUN GOLD—A hardy, shapely, dwarf, twiggy shrub, which grows into an almost completely oval globe of 2½ to 3 feet in diameter, and about 18 to 24 inches in height, densely covered with foliage that is handsome throughout the summer. It bears its cymes of golden flowers at the end of every shoot of the summer's new growth. Its flowers are large and produced in immense quantities, transforming this lovely plant into a small mound of gold when in full bloom.

Each
18 to 24 inches\$2.25

HYPERICUM KALMINIUM—Similar in habit and bloom to the Aureum, but foliage is steel blue in color.

18 to 24 inches\$1.50

KERRIA

KERRIA JAPONICA (Globe-flower or Yellow Kerria)—A low, broad, rounded, densely twiggy mass, spreading and becoming a little more loose as it grows older. Blooms in midspring for a moderate period with orange-yellow flowers. Likes partial shade.

18 to 24 inches\$1.50

KERRIS JAPONICA FLORA-PLENA (Double Globe-Flower)—Similar in habit to the regular Japonica, only this beautiful shrub has double orange-yellow blossoms over a longer period of time.

Each
15 to 18 inches\$2.00

RHODOTYPUS KERRIODES (White Kerria or Jetbread)—A rounded, open shrub, with spreading, and somewhat arching branches. Foliage bright green. Blooms in midspring and intermittently all summer with four-petalled white flowers, followed in fall with shiny black berries born at the tips of the branches. Thrives in adverse places, stands shade, crowding, and city atmosphere.

2 to 3 feet\$1.50

BEAUTY BUSH

KOLKOWITZIA AMABILIS (Beauty Bush)—This plant is a slender but erect shrub of bushy habit, with downward sweeping branches of very graceful aspect. Its flowers are like tiny foxgloves, bright shell pink, and produced in bewildering profusion.

Each
18 to 24 inches\$1.50

LILAC

LILAC, COMMON PURPLE (Syringa)—Large old-fashioned shrub with bluish-purple flowers. Very sweet-scented. The most popular and earliest to bloom of all lilacs.

Each
2 to 3 feet\$1.50

LILAC, PERSIAN PURPLE—The finest lilac for screen planting. Blooms the first year planted. Very dense growing and the foliage does not mildew.

Each
2 to 3 feet\$1.25
3 to 4 feet1.50

LILAC, FRENCH—Named varieties in Red, Purple, and White. These lilacs are more dwarf growing than the others and are all grafted to insure pure color as well as guarantee blooms soon after planting.

Each
18 to 24 inches\$1.75
2 to 3 feet2.25
3 to 4 feet2.75
4 to 5 feet3.75

LILAC JAPONICA (Jap Tree Lilac)—Grows to 30 feet or more, with a short trunk and reddish-brown bark. It is conspicuous in early summer with large panicles of creamy-white flowers.

Each
5 to 6 feet B & B\$6.50

LILAC, VILLOSA (Late Lilac)—Sometimes called Japonica, this handsome shrub blooms after all other lilacs are gone with a rosy-lilac colored flower. Has the best foliage of all lilacs and is a compliment to any border.

18 to 24 inches\$1.75

We invite our customers to visit our nursery when French Lilacs are in bloom to select plants from hundreds in the field for Fall delivery.

SOURWOOD

OXYDENDRON ARBOREUM (Sourwood)—It has thick, fissured bark; long, slender, pointed leaves with a sour taste, and small white flowers in conspicuous semi-drooping panicles. It is frequently in front of large trees, or as background for low borders, as the bright, glossy, green leaves turn a brilliant scarlet in the fall.

Each
18 to 24 inches B & B\$3.75

BAYBERRY

MYRICA PENNSYLVANIA (Northern Bayberry or Candleberry)—A compact, rounded shrub, dense and glossy, usually broader than high. Blooms in midspring with a reddish-green flower followed by small, globular berries covered with a whitish resin, born in clusters that are not showy until leaves drop.

Each
15 to 18 inches\$1.75

NINEBARK

PHYSOCARPUS OPULIFOLIA NANA (Dwarf Ninebark)—Semi-dwarf and very thick and bushy in growth, attractive light brown bark, creamy white bloom in late spring. Very good for informal hedges or low borders. Each

18 to 24 inches	\$1.25
-----------------------	--------

PHILADELPHIUS (Mock Orange)

PHILADELPHUS CORNARIUS (Sweet Scented Mock Orange)—Familiar shrub with vigorous erect habit that has white blossoms near Decoration Day. The breath of orange blossoms—of such entrancing fragrance—intense from the multitude of bloom, that is a necessity to a garden, and works splendidly in all sorts of plantings. Each

2 to 3 feet	\$1.00
3 to 4 feet	1.25

PHILADELPHUS VIRGINALIS — A magnificent new variety, far exceeds any other Mock Orange in beauty and form. Flowers are semi-double and cover the entire bush in early June. Has scattered blossoms the balance of the year. Each

2 to 3 feet	\$1.50
3 to 4 feet	1.75

PHILADELPHUS MINNESOTA SNOWFLAKE—(Plant Patent No. 538)—A very hardy, new mock orange introduced by a Minnesota nursery. The name Snowflake describes the shrub correctly. When in full bloom, the foliage is completely obscured by the profusion of large white flowers. Each

2 to 3 feet	\$1.50
3 to 4 feet	1.75

POTENTILLA

POTENTILLA FRUTICOSA—A beautiful, small, 3-foot high shrub, upright in growth, yet compact. Foliage is dense and fernlike in effect. Yellow flowers, 1½ inches across, borne with profusion in late summer. A splendid low growing shrub for foreground planting. Prefers sunny location. Each

15 to 18 inches	\$1.50
-----------------------	--------

PRIVET

PRIVET, AMUR RIVER HEDGING—Well-known formal hedge plant for shearing. One of the hardiest types of plants grown. Does not winter kill like the California Privet.

1 yr., 12 to 15 inches per 100	\$12.50
2 yr., 18 to 24 inches per 100	30.00
2 yr., 2 to 3 feet per 100	40.00

PRIVET, POLISH HEDGING—Similar to Amur River in habit but has darker foliage. Makes excellent formal hedge with trimming.

2 years, 15 to 18 inches	per 100—\$25.00
--------------------------------	-----------------

PRIVET, LODENSE—This is a dwarf bushy privet which is excellent for low hedges. Foliage is very dark green and looks almost like boxwood. The foliage hangs on until almost Christmas. Each

12 to 15 inches	\$.75
15 to 18 inches	1.00

PRIVET, REGAL'S—A low spreading form with gracefully drooping branches. The dense growth and dark green persistent leaves make it a desirable shrub for foundation or border planting, growing in shade and other impossible places. Each

18 to 24 inches	\$1.25
-----------------------	--------

PRIVET, GOLDEN (Ibota Vicari)—New hardy privet that carries golden-yellow leaves, providing a wealth of interesting contrasts from early spring until late fall. Develops a neat compact shrub that can be trimmed into any shape. Suitable for use as an individual shrub, or for hedging. Each

15 to 18 inches	\$1.50
-----------------------	--------

PRIVET, ENGLISH PYRAMIDAL—Habit very formal, requiring little trimming. Foliage, waxy, dark green and persisting into early winter.

15 to 18 inches	\$1.25
18 to 24 inches	1.50

PRUNUS

PRUNUS CISTENA (Purple Leaved Prune)—Outstanding because of its brilliant red foliage throughout the growing season. Has a small pink bloom in spring. Each

3 to 4 feet	\$3.00
-------------------	--------

PRUNUS TRILOBA (Tree Flowering Almond)—The small, double, quilled, bright pink flowers stud every twig and branchlet in the spring before the leaves appear. Each

3 to 4 feet	\$2.75
-------------------	--------

ALPINE CURRANT

RIBES ALPINUM (Alpine Currant)—An excellent, dense foliage mass; useful for borders and hedges; one of the best shrubs for shady locations. In central Ill., foliage will burn if planted in direct sunlight.

15 to 18 inches	\$1.75
-----------------------	--------

RHUS (Sumac)

RHUS CANADENSIS (Fragrant Sumac) — Aromatic shrub growing to 6 feet, which is one of the best for shady locations. Small yellowish flowers April-May, followed by red berries. Excellent dense foliage.

2 to 3 feet	\$1.50
-------------------	--------

RHUS COTINUS (Smoke Bush)—A bushy shrub that has handsome foliage and large clusters of rather showy flowers, followed by peculiar long-haired seeds which give the plant the effect of being covered with a greenish-purple film of smoke. Each

3 to 4 feet	\$2.00
-------------------	--------

ROSA

ROSA GROOTENDORST (Hardy Red Rose)—This plant is one of the showiest hardy roses in existence. It is covered the entire season with clusters of semi-double, red roses. Vigorous growing and can be used almost anywhere in the border. Each

2 yr. No. 1\$1.75

ROSA HANSA—Large, double red flowers which are very fragrant. Blooms off and on all summer, has an excellent foliage, and makes a good hedge. Each

2 to 3 feet\$1.50

ROSA HUGONIS (Father Hugh's Rose)—It is an extremely graceful, arching shrub, growing 5 to 6 feet in height. One of the earliest ornamental plants to come into flower, it frequently opens in April, covering itself with thousands of single yellow flowers of delicate fragrance. Its foliage is particularly dainty. Each

3 to 4 feet\$1.75

ROSA MULTIFLORA (Hedging Rose)—This is the very hardy rose plant that is recommended by the Department of Agriculture for farm fencing and conservation planting. Makes an impenetrable hedge, stock tight in very few years. Planted extensively as a wild game shelter.

No. 1 Seedlingsper 100, \$ 6.00

500 25.00

1,000 45.00

PUSSY WILLOW

SALIX DISCOLOR (Pussy Willow)—A fast-growing shrub-tree, blooming very early in the spring before the leaves come out. The fern-like catkins borne along the branches make it very attractive. Loves moist places. Each

3 to 4 feet\$1.50

SPIREA

SPIREA ANTHONY WATERER (Rose Spirea)—Low growing type of very compact, dense habit, with flat-topped clusters of rose-colored flowers throughout the season. Excellent for low foundation plantings. Each

15 to 18 inches\$1.50

SPIREA FROEBELI (Froebel Spirea)—Compact shrub of medium height producing numerous flat-topped clusters of orchid-pink flowers during the summer and later the foliage turns to the autumn colors. Each

18 to 24 inches\$1.25

SPIREA JAPONICA COCCINEA (Red Spirea)—Similar in growth and habit to Anthony Waterer but much deeper and richer in bloom coloring.

15 to 18 inches\$1.75

SPIREA VAN HOUTTEI (Bridal Wreath)—One of the finest of flowering shrubs, and none so popular or widely planted. Its adaptability to almost any soil or situation makes it one of the most desirable shrubs under cultivation. Each

18 to 24 inches\$1.00

2 to 3 feet1.25

3 to 4 feet1.50

SPIREA PRUNIFOLIA (True Bridal Wreath)—

Shrub of rather stiff, dense growth, with shiny foliage, turning bright autumn tints in the fall. Has tiny double white flowers in clusters, borne with utmost profusion along all of the branches as the leaves appear in the spring.

2 to 3 feet\$1.75

SPIREA THUNBERGI (Snow Garland)—A shrub with thin, arching branches plentifully besprinkled in very early spring with tiny, single, snow-white flowers. It is a dainty and very beautiful shrub, with feathery, fresh green foliage that in autumn turns scarlet and orange.

18 to 24 inches\$1.25

CORALBERRY

SYMPHORICARPUS MOTHER OF PEARL—A new shrub imported from Holland. The pink berries are on fruiting stems held erect away from the foliage of the plant. Very dense foliage.

18 to 24 inches\$1.75

SYMPHORICARPUS WHITE HEDGE—A new shrub which is a great improvement over the old snowberry. Formal in habit, and from Sept. to mid-winter, bush appears to be covered with popcorn.

18 to 24 inches\$1.75

SYMPHOROCARPUS CHENAULTI (Improved Coralberry)—Graceful shrub with coral-colored berries that hang on during the winter. Its habit and fine texture of foliage and twigs make it fine for foundation planting. Will grow in shady locations. Each

2 to 3 feet\$1.25

TAMARIX

TAMARIX—Heavy growing shrub with reddish-purple branches and bluish-green feathery foliage. Flowers in large pink panicles in August.

2 to 3 feet\$1.25

TAMARIX CASCADE—New introduction of merit. The heaviest blooming Tamarix on the market. Excellent for late summer bouquets.

18 to 24 inches\$1.75

VIBURNUM

VIBURNUM BURKWOODI—Semi-evergreen fragrant snowball. Flowers are waxy, bluish-white produced in early spring when the leaves are unfolding. Foliage brilliant in autumn and a shiny dark green throughout the summer. Each

2 to 3 feet B & B\$5.75

VIBURNUM CARLESI (Fragrant Viburnum)—The flowers are waxy pink and deliciously fragrant, produced in early spring when the leaves are unfolding. It likes a well drained sunny place with plenty of moisture throughout the season. Each

18 to 24 inches, B. and B.\$3.75

2 to 3 feet B & B\$4.75

VIBURNUM DENTATUM (Arrow Wood)—Upright growing with light green leaves. Flowers greenish-white followed by black fruit. A fine shrub for massing or foliage effect. Each

3 to 4 feet\$1.50

VIBURNUM JUDDI (Improved Fragrant Viburnum)—Distinguished from the old time Carlesi by its darker green foliage. Blossoms are identical.

2 to 3 feet B & B\$4.75

VIBURNUM LANTANA (Wayfaring Tree)—A large robust shrub with fuzzy foliage light green above and silvery beneath. After this plant has been in a border a few years, it outshines all other shrubs, with its remarkable foliage. Each
3 to 4 feet\$1.50

VIBURNUM LENTAGO (Nanny-Berry) — Tall shrub with large lustrous leaves which color nicely in fall. Blooms with clusters of creamy white flowers late in spring and is followed with juicy black berries. Each
3 to 4 feet\$1.50
4 to 5 feet 1.75

VIBURNUM OPULUS (Highbush Cranberry)—Tall and upright, with good foliage and especially decorative red fruit in large clusters which resemble cranberries and hang on well into the winter. Each
2 to 3 feet\$1.25
3 to 4 feet 1.50

VIBURNUM OPULUS NANA (Dwarf Highbush Cranberry)—A beautiful new shrub with the foliage of the regular Highbush Cranberry, but never exceeding the height of 24 inches. Excellent for informal hedges and foundation plantings on low houses. Does better in semi-shade. Each
12 to 15 inches\$1.50

VIBURNUM OPULUS STERILUS (Snowball)—Old-fashioned shrub that grows anywhere and blooms well. Characterized by its large clusters of white flowers at Decoration Day. Each
3 to 4 feet\$1.75

VIBURNUM RHYTIDOPHYLLUM (Leatherleaf Viburnum)—A large shrub with stout upright branches, spreading and finally arched to the ground, clothed with thick, coarse, rugose leaves which hang on most of the winter in protected positions. Blooms in early spring with ivory white flowers, followed by attractive fruits which are red, changing to black. Each
18 to 24 inches B & B\$4.75

VIBURNUM TOMENTOSUM (Doublefile Viburnum or Japanese Snowball)—A strong, vigorous shrub with broad-spreading, almost horizontal branches. Blooms in late spring with white, flat-topped flowers. Leaves are large and bronze-green in color, changing to dull red in fall. Each
18 to 24 inches\$1.50

WEIGELA

WEIGELA VANICEKI—The color of the flowers is a pleasing sparkling ruby-red. They are produced in tremendous quantities in the spring and intermittently throughout the summer and autumn. It attains a height of 6 to 7 feet at maturity, and grows into a well-rounded specimen requiring very little pruning. Each
2 to 3 feet\$1.75

WEIGELA ROSEA (Rose Weigela)—Very free-flowering shrub. Pink flowers are produced in so great profusion as to almost hide the foliage. A well-known shrub, fine for massing or for single specimen. Each
3 to 4 feet\$1.50

VINES

Vines should have deep, rich soil, and without which these charming shrubs will be both disappointing and commonplace. Generally vines about the house get set in a mixture of clay, brickbats, cinders and building refuse, and the owner finally decides that vines are not much good; while if the ground had been prepared by filling in with good, rich soil before planting, and mulched heavily with well rotted manure in the fall the results would be most satisfactory.

BOSTON IVY—The most popular climbing plant for covering brick, stone, or wooden walls. The color is a fresh, deep green in the summer, changing to autumn tints in the fall. Each
3 yr. No. 1\$1.25

CLEMATIS JACKMANI—Hardy vine with very large purple flowers. They like a rich, moist situation and not too sunny location. Do not plant very deep. Each
2 yr. No. 1\$1.50

CELASTRUS SCANDENS (Bittersweet) — Well-known native climber, handsome glossy foliage and large clusters of beautiful orange-crimson fruit retained all winter. Each
3 yr. No. 1\$1.50

EUONYMUS—(See Broad-Leaved Evergreens).

HEDERA HELIX -GRACILLUS (Baltica Ivy)—See Broad-Leaved Evergreens.

LONICERA FLAMING RED—New climbing honeysuckle of unusual merit. Flowers much larger and brighter than the old Trumpet Honeysuckle. Each
2 yr. No. 1\$1.25

LONICERA HALLIANA (Hall's Honeysuckle)—Strong grower, holds foliage until early winter. Flowers white, changing to yellow; very fragrant. Each
3 yr. No. 1\$ 0.85
Per 100\$50.00

POLYGONIUM AUBERTI (Silver Lace Vine)—The most vigorous and rapid-growing of all climbers, when blooming is covered with foamy sprays of creamy white flowers. Each
2 yr. No. 1\$1.25

WISTERIA PURPLE—One of the best of the hardy climbers, producing dense drooping clusters of pea-shaped flowers in May and occasionally during the fall. Color, violet blue. Each
2 yr. No. 1\$1.50

FRUITS

CHOOSE YOUR VITAMINS

APPLES

Price, 11/16th inch caliper, 2-year-old, \$2.25

Summer Varieties

YELLOW TRANSPARENT—This variety was introduced from Russia in 1870 by the U. S. Department of Agriculture and is one of the very hardiest and earliest bearers grown, usually bears in the nursery row. Of vigorous upright growth, but never makes a large tree. Fruit medium, skin clear white at first, becoming pale yellow when fully matured. Fruit may be used from ten days to two weeks earlier than any other kind. Extremely productive.

Winter Varieties

RED DELICIOUS—Tree very hardy, strong upright grower and comes into bearing soon. Fruit large, nearly covered with brilliant dark red. Flesh fine-grained, crisp, and melting. Juicy, with a delightful aroma; of very highest quality. This no doubt is the most popular and highest priced eating apple on the market. Season November to March.

YELLOW DELICIOUS—The Yellow Delicious is identical in shape and size with the red variety apple. Is completely yellow in appearance. Flavor sweet, and flesh is very firm, crisp and juicy. A splendid market apple.

JONATHAN—For years the standard of quality by which other sorts have been gauged. Trees are long lived, productive and an early bearer. A brilliant red apple, highly flavored and of excellent quality—being tender, juicy, spicy and rich—a splendid family sort and highly profitable for market. Season November to April.

Crab Apples

DOLGO—Fiery red. Bears young and abundantly. Tree very ornamental.

Fall Varieties

WEALTHY—Vigorous spreading tree, extremely productive. This beautiful moderate-sized brilliant red apple is of fine quality, one of the best of its season. It is a relatively good keeper, and owing to the hardness of the tree, its adaptability to cold climates and early bearing habit makes it a very profitable kind. Flesh white and tender, reddish stained and of excellent flavor. Season October to December.

MULTIPLE APPLE

5-n-1 APPLE—Scientifically budded to produce 5 kinds of apple varieties all on one tree during the season. If your space is limited, plant one or two of these novel trees.

Price Each, 4 to 5 ft., \$3.25

DWARF APPLES

YELLOW TRANSPARENT —Mall. IX	3.25
EARLY McINTOSH —Mall. IX	3.25
YELLOW DELICIOUS —Mall. IX	3.25
JONATHAN —Mall. IX	3.25

DELCON—A new variety grown on standard stock but dwarf in habit. Produces full-size, dark red fruit similar in shape to Delicious but without knobs. Flavor is a combination of its parents, Delicious and Jonathan. Never develops over 12 feet in height and bears the second year after planting. Price\$2.50

PEACHES

Price Each, 4 to 5 ft., \$2.25

BELLE OF GEORGIA—Very large. White with red cheek. Firm and of fine quality. It is a rapid grower, very productive and a good shipper. Early September.

ELBERTA—Large to very large, yellow, with beautiful blush; firm, a little coarse, but tender and good. While quality is not the highest, it has made more money for the orchardist than any other peach. In all probability no peach has met with equal success in so wide a range of territory as this variety. Season medium early, following closely the early Crawford. Hardier in bud than most kinds, therefore a more uniform cropper.

GOLDEN JUBILEE—A choice freestone recently introduced by the New Jersey Experiment Station. Tree habits resemble Elberta. Brings top market prices because it is early and has a superior flavor.

Due to an old American custom, we close each day from 12 to 1 for lunch

J. H. HALE—Very large, golden yellow blushed red with fuzzless skin. Flesh is yellow, solid, tender, of highest quality and delicious flavor. Very fine. Freestone.

PEARS

Price, 4 to 5 ft., \$2.25

BARTLETT — The favorite fall pear. Good for eating or canning. Propagated from blight resistant strains.

DWARF PEARS

Price, 2 yr. old \$2.75

DWARF DUCHESS—The regular Duchess pear budded on Quince.

DWARF SECKEL—The regular sugar pear. None better to eat or for spicing.

APRICOTS

Price, 4 to 5 ft., each \$2.50

MOORPARK — Very large, yellowish green with red on sunny side. Flesh bright orange and freestone. Ripens in August.

EARLY GOLDEN—The best flavored, most productive Apricot yet produced. Medium size, light salmon color, excellent quality. Ripens last of July.

CHERRIES

Price, 4 to 5 ft., each \$2.50

EARLY RICHMOND—This is perhaps the most popular and valuable cherry yet produced. It is very prolific and bears bright red, juicy fruit, rather acid in flavor and unexcelled for cooking. Tree very hardy. Ripens about tenth of June.

LARGE MONTMORENCY—A large and bright red, very attractive Cherry. A very pleasant acid flavor. Ripens about ten days after the Richmond. The fruit is much sought after on account of its large size and fine flavor.

DWARF CHERRY

NORTH STAR (Minn. No. 58)—Cross of Serbian pie cherry and English Morello. Small Tree. Fruit dark red at maturity. Stone small and free. Each 3½ ft. and up \$2.75

SWEET CHERRIES

Price, 4 to 5 ft., each \$2.75

LAMBERT — A beautiful cherry of large size, pale yellow with bright red cheek; flesh firm and sweet.

BLACK TARTARIAN—This is the outstanding sweet cherry in our territory. Fruit is large, sweet, and of the highest quality. Tree is a thrifty, upright grower.

PLUMS

Price, 4 to 5 ft., each \$2.25

BURBANK—Fruit very large, yellowish in color with red cheek in sun. Extremely small pit. Bears middle of June.

FELLENBERG—Large, dark purple, and sweet plum. One of the best for home canning.

SMALL FRUITS

RASPBERRIES

CUMBERLAND—After growing and testing a large number of Blackcap Raspberries during the past years, we find that this variety is far ahead of any in its class. The fruit is black and large, with a rich flavor, and the canes are exceptionally free from disease, and is a vigorous grower. The crop is all ripened within a few days, making it a valuable market sort. We are now growing only this variety of Blackcap.

Price per 25 tips \$ 3.00

Price per 100 tips 10.00

LATHAM—After growing this variety we find it to be the largest and finest red berry we have ever had on the grounds. It originated at the Minnesota Fruit Breeding Farm, and is now recognized at the best of all the reds. It was first sent out as Minnesota No. 4. It is of extraordinary large size, bright red color and excellent flavor, and the fruiting season lasts over six weeks.

Price per 10 transplants \$ 2.25

Price per 25 transplants 5.00

BLACKBERRIES

MIDNITE—A sensational new hardy, upright Blackberry, guaranteed to bear large, luscious berries year after year. Blackberry sterility has been eliminated in this variety by plant selection.

Price, each \$.35

Price, per 10 3.25

Price for 100 30.00

CURRANTS

RED LAKE—Berries sometimes more than a half an inch in diameter. Bunches short. Vigorous and productive when grown on good soils and well cultivated. Price, 50c each.

GOOSEBERRIES

2 yr. No. 1—75¢

PIXWELL—Very large fruit. Juicy and fine flavored. One of the best.

CHAMPION—A medium size gooseberry which is very vigorous and productive.

GRAPES

The vines we have to offer are all two-year-old, grown from cuttings taken from bearing vines, and are first-class in every particular.

CACO—Fruit is very large, rich wine-red in color. Flavor of the finest, very rich and sweet. Excellent quality. Ripens in September. Vines are hardy, strong and vigorous growers, very prolific. Price, each, 50¢.

CONCORD—The fine old market leader, with handsome clusters of large and luscious fruit. Color a purplish black and of a most excellent flavor. Entirely hardy and productive; succeeds over a very great extent of country. One of the best known grapes and one that all other varieties are compared with. The grape for the million. **Price, each, 35¢.**

MOORE'S EARLY—Excellent hardy variety, bearing very large berries with a heavy blue bloom. Valuable on account of its extreme earliness. Ripens from two to three weeks ahead of the Concord. **Price, each, 50¢.**

NIAGARA (White)—A popular commercial sort. Berries and bunches are large; greenish-white in color, changing to pale yellow when fully ripe. Quality excellent. **Price, each, 50¢.**

STRAWBERRIES

Strawberries will produce more fruit to the square rod and in less time than any other fruit we can grow. They grow wild in every section of the country from Alaska to Florida. It has always been a mystery to me why so many people do not raise this most refreshing and early fruit. A few square rods will produce all that one family can possibly use.

PREMIER—This is the most popular early strawberry of the day. The berries are very large, long pointed, light red in color and present a good appearance in the basket and in market. No other early strawberry is anything near equal to it in productiveness.

Price for bunch of 25 plants\$1.25
Price per 100 3.50

DUNLAP—A perfect-flowers variety that fruits without being planted with other kinds. Is proving to be the most valuable Strawberry yet grown in the United States, and is a favorite everywhere. The berries are very large, bright red, well formed and highly flavored. Being a great plant producer, it does not require as many plants to set a row as other kinds.

Price per bunch of 25 plants\$1.00
Price per 100 3.00

ROBINSON—One of the better mid-season varieties which is grown extensively by commercial growers. One of the recommended berries for freezing in your locker.

Price per bunch of 25 plants\$1.00
Price per 100 3.00

GEM (Everbearing)—Gem is the only everbearing variety that will make plants freely. The berry is dark red, pointed—about the size of Dunlap, of excellent quality and has a sweet, tart flavor. Gem commences to bear about 60 days after planted, and will continue to do well all summer and up until cold weather sets in. It can be grown on soil where an ordinary everbearing would be a failure.

Price per 25 plants\$1.50
Price per 100 5.00

Garden Roots

ASPARAGUS

Is of the easiest culture and is one of the first good things you may have from your garden. The plants, when once established will last indefinitely and improve with age. The ground should be well drained and well enriched with barnyard manure; give liberal dressing of manure each year.

WASHINGTON—A universal favorite. One of the best, and most popular of all varieties. Is rust resisting, grows very fast and comes up very thick. The heads are crisp, solid and compact. Price, strong roots, 10 plants\$.75
Price per 100 5.00

RHUBARB

McDONALD RED—Is far superior to any other kind of rhubarb. It is bright cherry-red in color the full length of the stalk, very large and a huge producer. Is extremely tender and has a fine flavor. The greatest commercial variety ever put on the market. **Price, 75c each**

ROSES

All our roses are potted in cloverset pots March 1 and placed in cold frames to insure an early start. The frames cannot be opened until after April 10. All rose orders booked for delivery after this date.

Our roses are grown under contract in California where the world's finest roses are produced. We guarantee these to be well grown and as good quality as you can get anywhere at any

price. We have field tested roses from all over the United States, Canada, and Holland, and have found none that will compare in quality with those from Northern California.

A few roses in any sunny location in your yard will give you more pleasure and satisfaction than any other plant. Ask for our How to Plant booklet.

HYBRID TEA ROSES

2-year No. 1 Potted\$1.75

CHARLOTTE ARMSTRONG — Carmine red to cerise. Long streamlined buds, and wavy-petaled high-centered blooms of incomparable form. Tall vigorous plant.

COUNTESS VANDAL—Long, pointed bud, upright stems. Color combination can hardly be described, pink, copper, gold and salmon.

CRIMSON GLORY—Color deep crimson. Glorious in its perfect form, large size and fragrance.

ECLIPSE — Bud remarkably long-pointed, deep gold. Flowers yellow on long, strong stems. Foliage leathery. Vigorous; profuse bloom.

KARL HERBST — Large, well-shaped, very fragrant, dark scarlet, lasting very well. Vigorous free bloomer. This is often called the Red Peace because of its parents, one of whom was Peace.

PICTURE — Very double, high centered, slightly fragrant, velvety clear rose-pink. Dark glossy foliage. Vigorous and free blooming.

REX ANDERSON—An outstanding exhibition rose of delicate lovely ivory-white. Perfectly formed, slow opening, one of the few successful whites.

THE DOCTOR—An international favorite. The buds are long and pointed, expand to a simply enormous bloom in their fully developed state. The color is an exquisite silvery pink.

PATENTED HYBRID TEA ROSES

(All Potted)

ANGEL WINGS (Patent Applied For) — Long golden buds open to large perfectly formed creamy white flowers tinged pink. These flowers age gracefully; the pink deepening and suffusing through the petals. An exhibition type rose of surpassing beauty. Extremely upright. Vibrant green foliage.
Price\$3.25

BUCCANEER (Patent No. 1119)—Grandiflora type with brilliant flowers of non-fading, lasting clear yellow. Received Gold Medal at the Geneva, Switzerland trials.
Price\$2.75

CARROUSEL (Patent No. 1066)—The large double flowers could easily class this rose as a Hybrid Tea, but the blooms appear in clusters so free blooming it is classed as a Grandiflora. Continuous mass of glowing deep red flowers. Tall growing and mildew resistant. Each
Price\$2.25

CONFIDENCE (Patent No. 1192) — Pastel blends of peach, pink, and yellow. Large, double, fragrant flowers. Vigorous, upright, bushy plant with dark leathery foliage.
Price\$2.75

CHRYSLER IMPERIAL (Patent No. 1167)—Vivid crimson-red, an outstanding red rose. The buds are long and tapering. It is an excellent grower and free blooming. Winner of the All-America Award for 1953.
Price\$2.75

FORTY-NINER (Patent No. 792)—Brilliantly hued bi-color, A.A.R.S. Award for 1949. Contrasting colors are startling in their brilliance. Inside of petals vivid orient-red, while the outside is chrome-yellow. Colors are lasting and bright.
Price\$2.50

GOVERNOR ROSELLINI (Patent Applied For) — Rose red buds and flowers of hybrid tea quality. Warm fruity fragrance. Very vigorous upright growth. Abundant bloom. Awarded Silver Certificate from International Rose Trials at Portland.
Price\$3.25

GARDEN PARTY (Patent Applied For) — All-American Award for 1960. Huge flowers of creamy ivory tinted apple blossom pink at the outer edge of the petals. The long buds and high centered flowers have excellent form. Well balanced vigorous plant; foliage olive-green. Abundant bloom.
Price\$3.75

GOLDEN SCEPTER (Patent No. 910) — Non-fading rich golden flowers open slowly from slender buds. Vigorous upright plant. Free bloom.
Price\$2.00

HELEN TRAUBEL (Patent No. 1028)—The color varies with the weather, sometimes a light sparkling pink, more often a luminous apricot. Its unusually large and long buds are magnificent. Very vigorous grower. A.A.R.S. award for 1952.
Price\$2.75

KATHERINE T. MARSHALL (Patent No. 607)—A rose of rare beauty and delicacy of form, growing vigorously with large, open upright blooms of warm glowing pink.
Price\$2.00

KORDES PERFECTA (Patent No. 1604)—The rose sensation of the year. The intriguing color combination is completely different from any rose in existence. The cream-white is lined with pink, and the flower finally opens to a most pleasing, unusual combination of pink and white with a suffusion of yellow.
Price\$3.75

MIRANDY (Patent No. 632)—First place winner of All-American Rose competition for 1945. Rich dark red. Marvelously fragrant.
Price\$2.50

MOJAVE (Patent No. 1176)—A.A.R.S. Award for 1954. The color is a blend of salmon, apricot, and orange, and occasionally in cool weather the salmon changes to red blended with the other two colors.
Price\$3.00

MONTEZUMA (Patent No. 1383)—The bright orange-scarlet of its fresh buds changes to salmon-orange in the open flower. The sleek buds are born in profusion. The plant is a compact grower with leathery, semi-glossy foliage.
Price\$3.00

PEACE (Patent No. 591)—Adjudged by experts to be one of the greatest new roses of all time. Magnificent large, very double blooms ranging in color from a deep yellow in bud, to creamy yellow with cerise-pink edging as the petals unfold, and finally an alabaster shade on fully open blooms. Very strong grower.

Price\$2.75

PINK PEACE (Pat. No. 1759) — Offspring of Peace. The deep dusty pink blooms are freely produced on long stems. Retains its fine pink coloring throughout the entire life of the plant.

Price\$3.25

QUEEN ELIZABETH (Patent No. 1259)—First grandiflora rose. Pure pink, and its blooms are set off dramatically by glossy, deep green foliage. Flowers borne on long, almost thornless stems. Cross between Charlotte Armstrong and Floradora.

Price\$3.00

ROSE OF FREEDOM (Patent No. 791)—Currant-red blooms with 60 to 70 petals borne on almost thornless 28 to 32 inch stems. Winner City of Portland Award for 1947. Highest scoring red rose in 1946-47 nation-wide shows.

Price\$2.00

STARFIRE (Patent No. 1742) — Glowing currant-red high centered blooms; distinctive, fluorescent, non-fading. Excellent for cutting. Bronzy green foliage. A.A.R.S. award for 1959.

Price\$3.75

SUTTER'S GOLD (Patent No. 885)—Beautiful long-pointed, yellow bud, richly shaded with orange and red. Rich tea fragrance not found in any other yellow roses. A.A.R.S. award for 1950.

Price\$2.50

TAPESTRY (Patent Applied For) — Flame colored roses one day, yellow the next, with copper the day after, or all colors may come at once — it can't make up its mind. Spicy fragrance. Upright, well branched plant with glossy, dark green, disease resistant leaves.

Price\$3.25

TIFFANEY (Patent No. 1304)—A.A.R.S. award for 1955. A beautiful phlox pink producing Blooms of outstanding quality. The long pointed buds are deep pink with golden yellow shading at base of petals.

Price\$3.00

WHITE KNIGHT (Patent No. 1359)—First white hybrid tea ever awarded the A.A.R.S. honor. Truly spectacular white hybrid tea with superb form of both bush and flower. 1958 A.A.R.S. award winner.

Price\$3.25

FLORIBUNDA ROSES

2-year No. 1 Potted\$1.75

BETTY PRIOR—Produces large fragrant clusters continuously throughout the season. Open lively red turning to shell-pink. Desirable for mass planting.

EUTIN—Large clusters of very double, deep red flowers on a vigorous mildew-resistant bush.

FLORADORA — Bud small, globular. Flower very double, slightly fragrant, scarlet red to orange. Glossy foliage. Upright and vigorous.

FRENSHAM—The flowers are dark, velvety crimson in graceful clusters which are excellent for cutting. Many clusters of blooms with long stems and long lasting qualities are produced from Spring through Fall.

IMPROVED LAFAYETTE—Large clusters of bright cherry-crimson.

PINOCCHIO — Great clusters of gracefully pointed buds of rich salmon flushed gold at base open to long lasting "sweetheart" flowers. Very profuse bloom. Well branched plant of medium growth.

RED GARNETTE—Comparatively new variety of merit producing petite red sweetheart roses. The plant attains a height of only about 18 inches and carries crinkled holly-like foliage.

SUMMER SNOW—The most prolific of white floribundas with Great "drifts" of beautiful large clusters like mounds of snow.

PATENTED FLORIBUNDA ROSES

(All Potted)

CIRCUS (Patent No. 1382)—New multicolor Floribunda and only winner of A. A. R. S. Award for 1956. The predominant color is yellow with the tight buds richly marked with red. Flowers born in clusters and are fine for cutting.

Price\$2.75

FASHION (Patent No. 789)—Brilliant luminous coral flowers overlaid with gold, opening into wavy, graceful petals. All season bloom, large clusters and singly. A.A.R.S. award for 1950.

Price\$2.25

FIRE KING (Patent No. 1758) — All-American Award for 1960. Iridescent vermilion — solidly brilliant. Long lasting fully double flowers of perfect form, open slowly from blood-red pointed buds. Upright vigorous plant with a quantity of dark rich green foliage.

Price\$2.75

GOLD CUP (Patent Number 1683)—Lovely golden yellow that holds its color throughout life of the flower. 1958 A.A.R.S. award.

Price\$2.75

GOLDILOCKS (Patent No. 672) — Deep yellow; fragrant; continuous clusters. Bushy medium growth; disease resistant.

Price\$2.00

IVORY FASHION (Patent No. 1688)—Long slender ivory colored buds opening to four-inch flowers; long decorative golden stamens. Fragrant, long lasting. Healthy plant to 30 inches. A.A.R.S. award for 1959.

Price\$3.00

LITTLE DARLING (Patent No. 1581) — Hues of brilliance from red-orange on outer circle to shades of rose-pink, to warm buttercup-yellow at heart. 2½ inch blooms borne singly and in clusters.

Price\$2.25

RED PINOCCHIO (Patent No. 812)—Masses of 3½-inch flowers in unfading clusters. Rich carmine; gradually deepens as blooms open. Wild rose fragrance.

Price\$2.00

SARABANDE (Patent No. 1761) — All-American award for 1960. Brilliant Orient red — a bright iridescent orange-red, accented with bright yellow stamens. Large, open semi-double flowers, in cluster, cover the plant, and keep coming. Low, sturdy spreading plant.

Price\$2.75

SPARTAN (Patent No. 1357)—The wonder floribunda Rose. A brand new creation that is both beautiful and robust. Slowly opening buds of burnt-orange become orange-red and then reddish coral, with sweet fragrance. Amazingly hardy and vigorous.

Price\$3.00

TEXAN (Patent No. 1471)—Fiery red blossoms with yellow base. Continuously in bloom. Dark green foliage.

Price\$2.75

TOM TOM (Patent No. 1671)— Beautiful blooms of an unusual shade of rose pink. Very uniform, compact bushy growth. Bright green foliage contrasts with stems that remain ox-blood red.

Price\$2.75

VOGUE (Patent No. 926)—New floribunda with its own unique brilliantly glowing cherry-coral color. Individual flowers three to four inches in diameter are hybrid tea-shaped with perfect high-centered form. A.A.R.S. award for 1952.

Price\$2.25

CLIMBING ROSES

2-year No. 1, Potted\$1.75

AMERICAN BEAUTY—An old favorite Climbing Rose. Very hardy and a vigorous grower. Color deep pink. Blooms extra large.

BLAZE — Sometimes called the everblooming Paul's Scarlet. Blaze give a plentiful supply of vivid scarlet flowers over a long first blooming period and then continues to flower intermittently all season.

NEW DAWN—Everblooming climbing rose. Apple blossom pink flowers with old rose fragrance.

PAUL'S SCARLET—Large well-shaped flowers of a vivid scarlet-red that does not fade.

WHITE DAWN—Best everblooming, hardy, big-flowered white climbing rose. Healthy, strong-growing and pleasing free and continuous in blooms.

PATENTED CLIMBING ROSES

(All Potted)

DR. J. H. NICHOLAS (Patent No. 457)—Vigorous plant, dark green foliage, double deep rose-pink flowers 5 to 6 inches across with about 50 petals. Grows 8 to 10 feet in height and is everblooming.

Price\$2.25

GLADIATOR (Patent No. 1524) — Large, high centered, bright rose-red color. Dark green disease resistant foliage. Fragrant, everblooming.

Price\$3.00

GOLDEN SHOWERS (Patent No. 1557) — The first winter hardy everblooming pillar and climbing rose that actually blooms from early spring through late fall. Daffodil yellow, 25 to 30 petaled flowers. Very fragrant and almost thornless. Highly resistant to mildew and black spot. Winner of 1957 A.A.R.S. Award.

Price\$3.25

KING MIDAS (Patent No. 586)—Blooms with a profusion of large double yellow flowers.

Price\$2.25

FOR MUCH TOO LONG we have been thinking of roses as weak plants which must be pampered. This is not true.

Actually roses are quite robust plants that are long-lived, adaptable and do not require constant care. You need only a simple program of reasonable care which requires little effort on your part and will insure a wealth of bloom from May to November.

In buying roses, one thing is sure: you get exactly what you pay for. You soon discover a pretty face is not everything. There are, however, several things to guide you. The main guide is grading. We handle only No. 1 Top Grade which are too large to appear in packages on counters in grocery and drug stores.

Terracrete is
So Easy to Lay

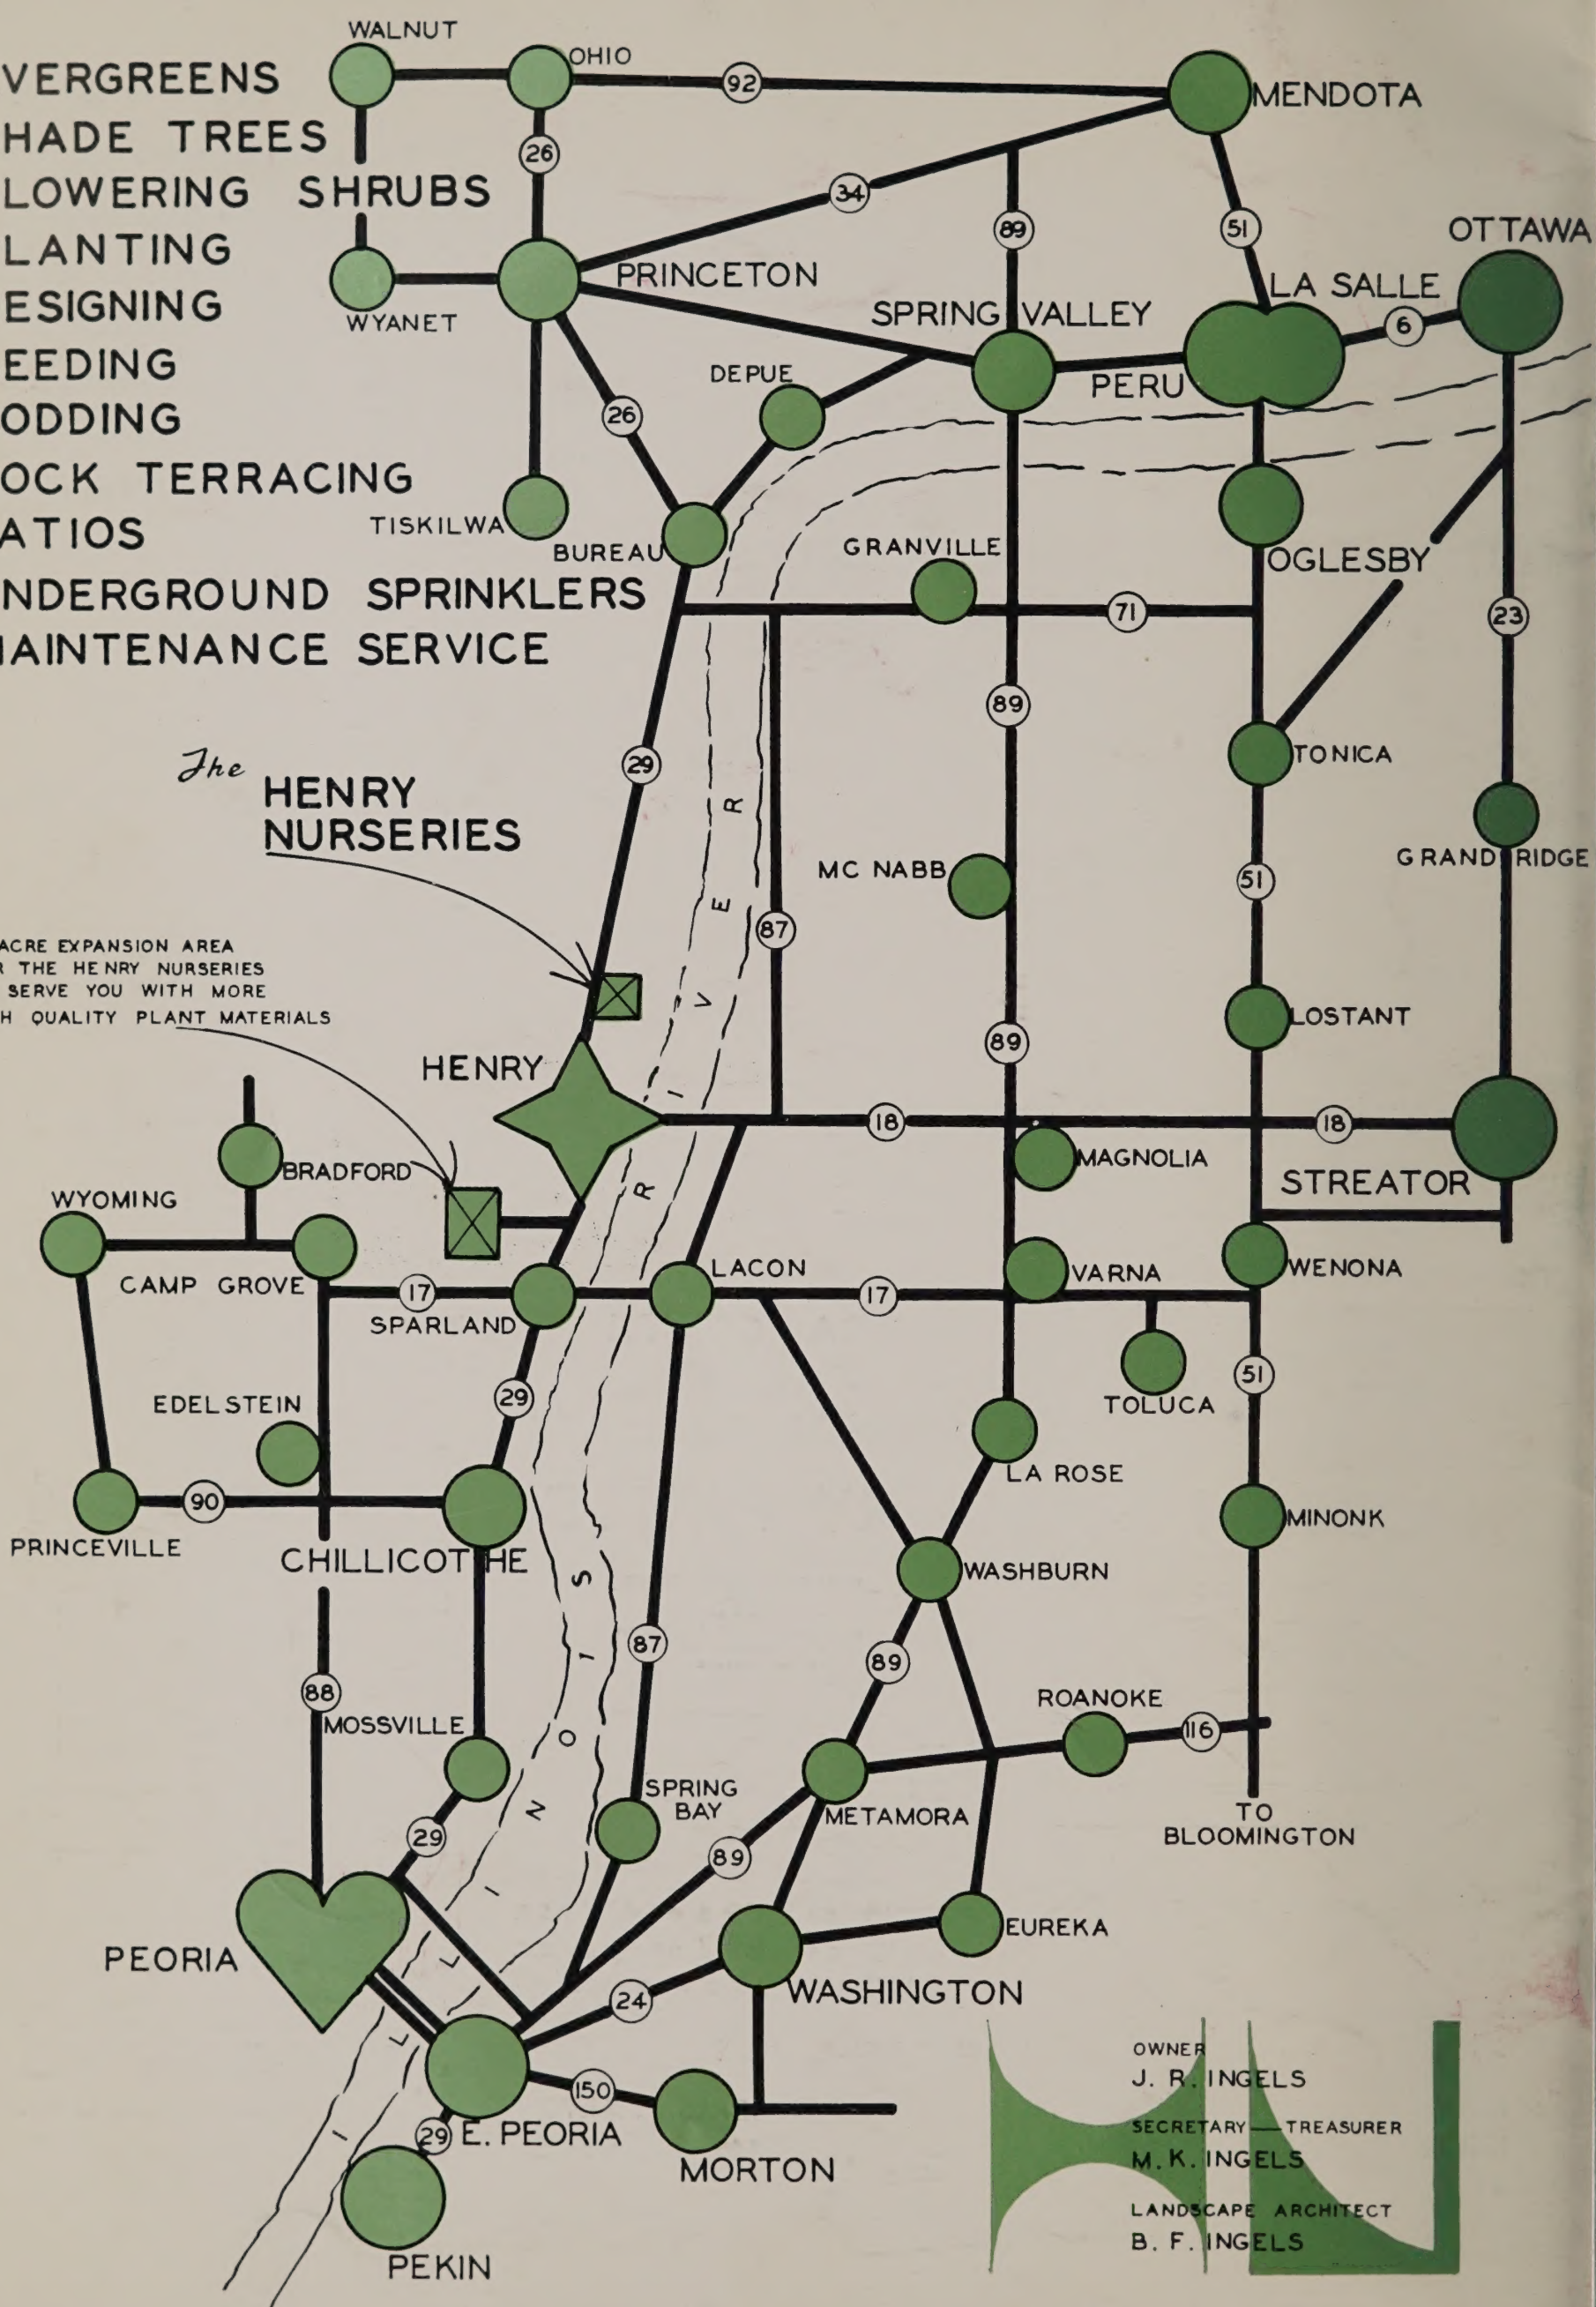

One of Many Ways to Install

1. Dig out ground to depth of about four inches.
 2. Place 1x4s in position to serve as rails. Put in about two inches of sand or fine gravel. Sprinkle with hose to pack.
 3. Cut a piece of 1x4 to shape as shown, with 2" depth at point "A".
 4. Draw board along rails, thus creating a smooth bed, exactly 2" deep.
 5. Lay Terracrete in sand and fill joints.
- When using two sizes in combination, we recommend laying the units $\frac{3}{8}$ " apart, and filling the openings by sweeping dry sand over the entire surface.
- If units are all same size they may be laid 1" to $1\frac{1}{2}$ " apart, filled with black dirt and seeded.
